The Shape Of Religious Instruction:

The Shape of Religious Instruction James Michael Lee, 1971-01-01 **Religious Instruction** James Michael Lee, 1984 *Above Or Within?* Ian P. Knox, 1976 *The Flow of Religious Instruction* James Michael Lee, 1973 **The Shape of Religious Instruction** James Michael Lee, 1971 THE SHAPE OF RELIGIOUS INSTRUCTION the book which launched a sweeping revolution in religious education Must reading for every Catholic and Protestant religious educator James Michael Lee s monumental trilogy on religious instruction accomplishes what never before has been attempted in Catholic or Protestant circles namely the development of a broad comprehensive and systematic theory of religious instruction By establishing a systematic theory Lee s trilogy makes it possible for the first time to develop truly effective and integrative religion teaching practices and religion curricula The trilogy embraces the social science approach to religious education The social science approach is not a pedagogical technique or a passing fad it is an organic scaffolding or superstructure which forms the basic elements for all tried and true education Volume I of the trilogy *The Shape of Religious Instruction* presents the rationale for the existence of religious instruction as a field in its own right a field drawing upon but not a branch of other disciplines or areas such as theology psychology or sociology The concepts and suggestions set forth in the trilogy apply with the same basic force to persons of all ages children adolescents and adults These concepts and suggestions also apply to religious instruction no matter where it is done in a classroom in a home in a family situation in a camp in a liturgy or on the athletic field Ecumenical in tone reference and intent Lee s trilogy is exerting significant impact on Catholic and Protestant religious educators alike **"Education Has Nothing to Do with Theology"** Edward J. Newell, 2006-08-01 Does education have any relation to theology How do the educator s worldview commitments speak to his or her practice of education James Michael Lee brought a definite answer to these questions a firm no to the relations question and an advocacy for empirical findings over and against any speculative or theoretical positions in reply to the commitments question Lee claimed to have a universal neutral metatheory for all religious education a theory that would apply to all religious educators in any and every religion But in proposing his theory he overlooked the way that empirical facts express worldviews This book is a detective story tracing commitments that lay underneath empirical neutrality In the process the reader will see avenues that unmistakably link education to theology Education turns out to be a thoroughly worldview conditioned process This new work is essential reading for professors and students in both religious and general education *Lectionary-Based Catechesis for Children* Sylvia DeVillers, 1994 A guide to help catechists find ways of integrating lectionary readings with existing curriculum based materials for children includes practical ideas sample lesson plans and a catechist formation program **The Content of Religious Instruction** James Michael Lee, 1984 *Roman Jacobson's Prism* The Rev. Dr. Ronald Hunt, 2018-05-22 *Roman Jacobson's Prism* Learning the Language of Faith is a dissertation that examines the common elements found in the catechetical documents of the three mainline Canadian

churches the Anglican Roman Catholic and United Church Dr Hunt employs Roman Jakobson's communication theory for the analysis as communication is central to faith education Twenty first century churches need to respond effectively to the faith education of their membership and Dr Hunt hopes that this work will inspire the churches of today to create faith responses to the challenges that the world faces now and into the future
