Coworking Spaces Janet Merkel, Dimitris Pettas, Vasilis Avdikos, 2023-11-07 This contributed volume considers the emergence of coworking as centered in labor issues. More specifically its chapters consider it as a coping mechanism in the worldwide rise of independent modes of work i.e. self employment that leaves more and more workers exposed to precarity as they must organize and manage their own labor. Grounded in this perspective this volume aims to understand the transformative social and political potentials emerging through coworking as a social and spatial practice. There is a distinct lack of discussion within coworking research on the emancipatory potentials of coworking and if it is discussed more cautionary views prevail highlighting the ambivalence of coworking spaces both as a space of alternative economic practices and as integrated into market economies. The aims of this collection are twofold. First it aims to make visible the plurality of existing practices around shared resources in coworking and the assemblages of human and non human actors as agents of change associated with coworking and the re organization of work and labor power. And second it aims to develop a more emancipatory narrative for coworking and the role of coworking spaces for workers but also the different spatial contexts in which these spaces are situated. A narrative that does not emphasize entrepreneurship or coworking as the epitome of the neoliberal entrepreneurial self as in the dominant interpretations in the current research but rather one that centers coworking in the creation of meaningful careful social relationships supporting empathy and an ethics that recognizes mutual interdependencies and builds a foundation for social change. So it is about alternative narratives emancipation politics and the wider social role that coworking spaces might play in neighborhoods cities or beyond because they are crucial contexts for the formation and maintenance of social relations. With this specific direction this collection aims to bring coworking research into a fruitful dialog with other research fields such as sociology of work feminist perspectives on care alternative and diverse economies post capitalist transformation critical geography positioning coworking within a range of progressive alternatives in the articulation of economic and social relationships.

The Lost Art of Connecting: The Gather, Ask, Do Method for Building Meaningful Business Relationships Susan McPherson, 2021-03-23. Named a Best Business Book of 2021 by Soundview Magazine. Reclaim the power of genuine human connection. Networking is often considered a necessary evil for all working professionals. With social media platforms like LinkedIn, Twitter, Instagram, and Facebook at our disposal, reaching potential investors or employers is much easier. Yet these connections often feel transactional, agenda-driven, and dehumanizing, leaving professionals feeling burnt out and stressed out. Instead, we should connect on a human level and build authentic relationships beyond securing a new job or a new investor for your next big idea. To build real and meaningful networking contacts, we need to go back to basics, remembering that technology is a tool and more than just a means to an end. We need to tap into our humanity and learn to be more intentional and authentic. As a serial connector and communications expert, Susan McPherson has a lifetime of experience building genuine connections in and out of work. Her methodology is broken down into three simple steps: Gather. Instead of waiting for the perfect networking opportunity to come to you, think outside the box and create your own opportunity. Host your own dinner party, join a local meet-up group, or volunteer at your neighborhood food pantry. Ask. Instead of leading with our own rehearsed elevator pitches, asking for help, ask to help, opening the door to share resources, experience, contacts, and perspectives that add diversity to your own vision. Do. Turn new connections into meaningful relationships by taking these newly formed relationships deeper. Follow through on the promises you made and keep in touch. Woven together with helpful tips and useful advice on making the most out of every step, this book draws on McPherson's own experience as a renowned serial connector, as well as the real-life success stories of friends and clients. Filled with humor, humility, and wisdom, *The Lost Art of*
