Disenchanting Albert the Great David J. Collins, S. J., 2024-08-13 Albert the Great 1200-1280 was a prominent Dominican friar a leading philosopher and the teacher of Thomas Aquinas He also endorsed the use of magic Controversial though that stance would have been Albert was never punished or repudiated for what he wrote Albert's reception followed instead a markedly different course leading ultimately to his canonization by the Catholic Church in 1931 But his thoughts about magic have been debated for centuries Disenchanting Albert the Great takes Albert's contested reputation as a case study for the long and complex history surrounding the concept of magic and magic's relationship to science and religion Over the centuries Albert was celebrated for his magic or it was explained away but he was never condemned In the fifteenth century members of learned circles first attempted to distance Albert from magic with the goal of exonerating him of superstition irrationality and immorality Disenchanting Albert the Great discusses the philosopher's own understanding of magic an early adulatory phase of his reputation as a magician and the three primary strategies used to exonerate Albert over the centuries In the end Disenchanting Albert the Great tells the story of a thirteenth century scholar who worked to disenchant the natural world with his ideas about magic but who himself would not be disenchanted until the modern era This accessible and insightful history will appeal to those interested in Albert the Great Catholic Church history the history of magic and Western understandings of the natural and the rational over time
