## **The Gruenfeld Defense:**

**Starting Out** Jacob Aagaard, 2004 The Grunfeld is an energetic and popular defense to queen's pawn openings and is a favorite of the world number one Garry Kasparov. From the start of the game Black allows White to build an apparently strong centre but then attacks it with all his forces. Play can become extremely sharp and theoretical and this opening very much appeals to dynamic players. In this book International Master Jacob Aagaard revisits the fundamental principles of the Grunfeld and its numerous variations. Throughout the book there are an abundance of notes, tips and warnings to guide the improving player while important strategies, ideas and tactics for both sides are clearly illustrated. User friendly design to help readers absorb ideas. Concentrates on the main ideas of the Grunfeld. Ideal for the improving player.

**Challenging the Grunfeld** Edward Dearing, 2005 This is a thorough guide to a very complex opening system for experienced chess players. Organised in the traditional complete style this is more than just a repertoire for White against this topical system. Experienced players are attracted to the strategic complexity of 1 d4 openings but do not know how to deal with the dynamic Grunfeld Defence. Here an International Master suggests that the answer is the Modern Exchange Variation as favoured by Kramnik, Gelfand, Anand and other top grandmasters on numerous occasions. With in depth coverage the book includes 50 main games readers can play through with conclusions at the end of every game and chapter. This is essential reading for both defenders of this opening system as well as those who want to Challenge the Grunfeld.
