resulted in this cutting edge book *The Happiness Formula Using Science to Understand Personal Satisfaction Human Hope and Subjective Well Being* Unlike other books about happiness which are too often filled with dos and don ts wishful thinking and empty aphorisms *The Happiness Formula* breaks new ground by introducing a universal unit of measure called the Personal Happiness Index or PHI This makes it possible for the first time ever to calculate and assign numerical happiness scores to human individuals by plugging their unique hopes hungers assets and aspirations into an equation Despite its title *The Happiness Formula* is much more than a mathematical equation for measuring happiness It is a book about life the relationship between human hope and happiness how to find measure and boost them and most interestingly how to confirm the happiest country in the world and even help identify the happiest living human or HLH It challenges the World Happiness Report of 2023 debunks three major happiness myths and then introduces the Triple H Equation the simple but profound formula about what makes life worth living This is a book for happiness seekers and happiness advocates everywhere
