The Hellenistic Aesthetic:

The Hellenistic Aesthetic Barbara Hughes Fowler, 1989 Fowler's own insights are apparent throughout and they seem to distill the personal appreciation and understanding of a scholar who has devoted much of her career to both contemplating and enjoying Hellenistic poetry. This book would make an excellent background text for courses in later Greek and Roman art and it can be read with profit by anyone interested in exploring the character of Hellenistic culture. J. J. Pollitt, *American Journal of Archaeology*. Outstanding is the range of examples discussed both in poetry and art. Theocritus, Callimachus, Appollonius, the epigrammatists, and others that is the major figures of the time are considered at length and in several different contexts. Passages are quoted in the original Greek translated and analyzed. Fowler's sensitivity to poetic forms evident in her other published writings is again evident here. In addition, however, the philosophical context is not overlooked. Also highly commendable are the liberal references to works of art. Sculpture in the round and in relief, portraits, terracotta figurines, original paintings, grave stelae, and Campanian murals, mosaics, gold and silver vessels, and jewelry are introduced at various points. Every work of art discussed is illustrated in astonishingly clear photographs which are interspersed in the body of the text. Christine Mitchell Havelock, *The Hellenistic Aesthetic* provides classicists with their first thorough discussion of the aesthetic unity found in Hellenistic art and literature. Fowler examines parallels both in subject matter and in artistic approach among a diverse group of literary genres and artistic forms. In twelve chapters, *The Hellenistic Aesthetic* surveys Alexandrian epigrams, pastorals, epics, sculptural groups, mosaics, paintings, and jewelry to supply a convincing and frequently unexpected picture of a unified aesthetic vision. Jeffrey Buller, *Classical Outlook*.

The Hellenistic Aesthetic Barbara Hughes Fowler, 1989. An introduction to the Hellenistic Period c. 323-27 B.C. which saw the unification of the Mediterranean and Central Asia under the Greek culture and language. The author explores a range of subjects including poetry and literature, science, religion, and art. *A Companion to Ancient Aesthetics* Pierre Destrée, Penelope Murray, 2015-04-28. The first of its kind. *A Companion to Ancient Aesthetics* presents a synoptic view of the arts which crosses traditional boundaries and explores the aesthetic experience of the ancients across a range of media: oral, aural, visual, and literary. Investigates the many ways in which the arts were experienced and conceptualized in the ancient world. Explores the aesthetic experience of the ancients across a range of media, treating literary, oral, aural, and visual arts together in a single volume. Presents an integrated perspective on the major themes of ancient aesthetics which challenges traditional demarcations. Raises questions about the similarities and differences between ancient and modern ways of thinking about the place of art in society.

Different Aesthetics Annette Gerok-Reiter, Jörg Robert, Matthias Bauer, Anna Pawlak, 2025-05-19. What is art? What does art offer? Why does art move us? The CRC *Different Aesthetics* pursues these questions. In doing so, and by directing its attention towards the 2000-year history of European culture and art before the 18th century, it aims to transform perspectives within aesthetic discussions. This volume introduces the research undertaken by the CRC 1391. It outlines the benefits of

concentrating on the pre modern period lays out the subsequent adjustments to analytical tools and methods and presents the resulting consequences for the study of aesthetics The contributions which range from philology and literary studies art history archaeology and musicology to historical science theology and the digital humanities offer concrete examples of this approach

The Sublime in Antiquity James I. Porter,2016-03-07 Current understandings of the sublime are focused by a single word sublimity and by a single author Longinus The sublime is not a word it is a concept and an experience or rather a whole range of ideas meanings and experiences that are embedded in conceptual and experiential patterns Once we train our sights on these patterns a radically different prospect on the sublime in antiquity comes to light one that touches everything from its range of expressions to its dates of emergence evolution role in the cultures of antiquity as a whole and later reception This book is the first to outline an alternative account of the sublime in Greek and Roman poetry philosophy and the sciences in addition to rhetoric and literary criticism It offers new readings of Longinus without privileging him but instead situates him within a much larger context of reflection on the sublime in antiquity

Greek Art and Aesthetics in the Fourth Century B.C. William A. P. Childs,2018-04-10 Greek Art and Aesthetics in the Fourth Century B C analyzes the broad character of art produced during this period providing in depth analysis of and commentary on many of its most notable examples of sculpture and painting Taking into consideration developments in style and subject matter and elucidating political religious and intellectual context William A P Childs argues that Greek art in this era was a natural outgrowth of the high classical period and focused on developing the rudiments of individual expression that became the hallmark of the classical in the fifth century As Childs shows in many respects the art of this period corresponds with the philosophical inquiry by Plato and his contemporaries into the nature of art and speaks to the contemporaneous sense of insecurity and renewed religious devotion Delving into formal and iconographic developments in sculpture and painting Childs examines how the sensitive expressive

quality of these works seamlessly links the classical and Hellenistic periods with no appreciable rupture in the continuous exploration of the human condition Another overarching theme concerns the nature of style as a concept of expression an issue that becomes more important given the increasingly multiple styles and functions of fourth century Greek art Childs also shows how the color and form of works suggested the unseen and revealed the profound character of individuals and the physical world
