The Man Hunt:

The Public Louis Freeland Post, Mrs. Alice Thacher Post, Stoughton Cooley, 1910 **The Public**, 1910 **Nordic Genre Film** Tommy Gustafsson, 2015-05-15 Nordic Genre Film offers a transnational approach to studying contemporary genre production in Nordic cinema The Army Lawyer, 2013-02 *Armed Servants* Peter Feaver, 2009-07 How do civilians control the military In the wake of September 11 the renewed presence of national security in everyday life has made this question all the more pressing In this book Peter Feaver proposes an ambitious new theory that treats civil military relations as a principal agent relationship with the civilian executive monitoring the actions of military agents the armed servants of the nation state Military obedience is not automatic but depends on strategic calculations of whether civilians will catch and punish misbehavior This model challenges Samuel Huntington's professionalism based model of civil military relations and provides an innovative way of making sense of the U S Cold War and post Cold War experience especially the distinctively stormy civil military relations of the Clinton era In the decade after the Cold War ended civilians and the military had a variety of run ins over whether and how to use military force These episodes as interpreted by agency theory contradict the conventional wisdom that civil military relations matter only if there is risk of a coup On the contrary military professionalism does not by itself ensure unchallenged civilian authority As Feaver argues agency theory offers the best foundation for thinking about relations between military and civilian leaders now and in the future An International Perspective on Disasters and Children's Mental Health Christina W. Hoven, Lawrence V. Amsel, Sam Tyano, 2019-07-18 This book provides a broad international perspective on the psychological trauma faced by children and adolescents exposed to major disasters and on the local public health response to their needs An outstanding quality of the book is that it draws upon the experience of local researchers clinicians and public mental health practitioners who dedicated themselves to these children in the wake of overwhelming events The chapters address exemplary responses to a wide variety of trauma types including severe weather war industrial catastrophes earthquakes and terrorism Because disasters do not recognize geographic economic or political boundaries the chapters have been selected to reflect the diverse global community's attempt to respond to vulnerable children in the most challenging times The book thus examines a diverse range of healthcare systems cultural settings mental health infrastructure government policies and the economic factors that have played an important role in responses to traumatic events The ultimate goal of this book is to stimulate future international collaborations and interventions that will promote children's mental health in the face of disaster **Media and Terrorism in the 21st Century** Ismayil, Elnur, Karadogan Ismayil, Ebru, 2022-04-22 Media plays a specific role within modern society It has been and continues to be a tool for spreading terrorist messages However it can just as easily be used as a tool for countering terrorism During these challenging times where both international and domestic terrorism continue to threaten the livelihoods of citizens it is imperative that studies are undertaken to examine the media's role in the spread of terrorism

as well as to explore strategies and protocols that can be put in place to mitigate the spread Media and Terrorism in the 21st Century presents the emerging ideas and insights from experts academicians and professionals on the role media and new media plays in terrorist propaganda from a critical international perspective It examines the historical relation between media and terror and analyzes the difficulties and obstacles presented by the relation in the 21st century Covering topics such as AI based dataveillance media development trends and virtual terrorism this book is an indispensable resource for government officials communications experts politicians security professionals sociologists students and educators of higher education researchers and academicians

In the Shadow of the Red Banner Yitzhak Arad,2010 Over 500 000 Jews fought under the Soviet banner in World War Two of which an approximate 40 percent gave their lives the highest percentage of all the nations of the Soviet Union and among all the other nations that fought in the Second World War Dr Arad now sets the record straight on the immense contribution of Soviet Jewry in the battle against Nazi Germany a part of history long concealed by the Soviet government After outlining the military progress of the war the book documents the contributions of Soviet Jewry on the battlefronts and in the weapons development industry in the ghetto undergrounds and in partisan warfare In addition the book records the Soviet government s deliberate attempts to downplay the Jewish effort and the anti Semitism that Jewish soldiers and partisan groups suffered at the hands of the Soviet establishment even while giving their lives for their country Replete with the stories of individual heroes of all ranks the book pays a debt of gratitude to those who paid the ultimate price to achieve our victory

The Gospel of Osiris William Norman Guthrie,1916 **Lious Sabo against Herman B. Delman** Armand Gilinsky, *Black Manhood on the Silent Screen* Gerald R. that from 1915 through 1929 a number of African American film directors worked diligently to counter such racist definitions of black manhood found in films like D W Griffith s *The Birth of a Nation* the 1915 epic that glorified the Ku Klux Klan In the wake of the film s phenomenal success African American filmmakers sought to defend and redefine black manhood through motion pictures Gerald Butters s comprehensive study of the African American cinematic vision in silent film concentrates on works largely ignored by most contemporary film scholars African American produced and directed films and white independent productions of all black features Using these race movies to explore the construction of masculine identity and the use of race in popular culture he separates cinematic myth from historical reality the myth of the Euro American controlled cinematic portrayal of black men versus the actual black male experience Through intense archival research Butters reconstructs many lost films expanding the discussion of race and representation beyond the debate about good and bad imagery to explore the construction of masculine identity and the use of race as device in the context of Western popular culture He particularly examines the filmmaking of Oscar Micheaux the most prolific and controversial of all African American silent film directors and creator of the recently rediscovered *Within Our Gates* the legendary film that exposed a virtual litany of white abuses toward blacks *Black Manhood on the Silent Screen* is unique in that it takes contemporary and original film theory applies it to the distinctive body of African American independent films in the silent era and relates the meaning of these films to larger political social and intellectual events in American society By showing how both white and black men have defined their own sense of manhood through cinema it examines the intersection of race and gender in the movies and offers a deft interweaving of film theory American history and film history **The Publishers Weekly** ,1920
