**The Management and Regulation of Banks** J. Cooper, 2015-12-22      Regulation and Supervision of Bank Senior Management in Light of Prudential Corporate Governance Kimberley S. Rothwell, 2024-10-03

Ongoing conduct issues in the banking sector have sparked global discussions on the effectiveness of the corporate governance of these institutions. This dissertation commences by exploring the internationally evolving regulatory landscape of prudential corporate governance and the role of bank senior management within these frameworks using a law and economics perspective. Two model jurisdictions, the United Kingdom and the Netherlands, are identified as pioneers with their emerging approaches to tackle the persisting challenges. Against this backdrop, the study turns to Switzerland. It fills the gap of a comprehensive supervisory law analysis of bank senior management. For this purpose, the fragmented provisions are distilled from their institutional embedding and structured along the supervisory law life cycle of authorisation, ongoing supervision, and enforcement. Along each phase, the respective novel approaches from the model jurisdictions are presented. Through these analyses, the dissertation identifies gaps and inefficiencies in the Swiss supervisory law framework. These findings are synthesised in order to gain a holistic view of the current setup. Concluding future pathways for Switzerland are presented, also inspired by international developments, to propose a more structured, robust, and efficient framework for the regulatory oversight of the senior management of Swiss banks.

**Bank Regulation, Risk Management, and Compliance** Alexander Dill, 2019-10-01

Bank Regulation, Risk Management, and Compliance is a concise yet comprehensive treatment of the primary areas of US banking regulation: micro-prudential, macro-prudential, financial consumer protection, and AML/CFT regulation, and their associated risk management and compliance systems. The book's focus is the US, but its prolific use of standards published by the Basel Committee on Banking Supervision and frequent comparisons with UK and EU versions of US regulation offer a broad perspective on global bank regulation and expectations for internal governance. The book establishes a conceptual framework that helps readers to understand bank regulators' expectations for the risk management and compliance functions. Informed by the author's experience at a major credit rating agency in helping to design and implement a ratings compliance system, it explains how the banking business model, through credit extension and credit intermediation, creates the principal risks that regulation is designed to mitigate: credit, interest rate, market, and operational risk, and more broadly, systemic risk. The book covers, in a single volume, the four areas of bank regulation and supervision and the associated regulatory expectations and firms' governance systems. Readers desiring to study the subject in a unified manner have needed to separately consult specialized treatments of their areas of interest, resulting in a fragmented grasp of the subject matter. Banking regulation has a cohesive unity due, in large part, to national authorities' agreement to follow global standards and to the homogenizing effects of the integrated global financial markets. The book is designed for legal, risk, and compliance banking professionals, students in law, business, and other finance-related graduate programs, and finance professionals.

generally who want a reference book on bank regulation risk management and compliance It can serve both as a primer for entry level finance professionals and as a reference guide for seasoned risk and compliance officials senior management and regulators and other policymakers Although the book s focus is bank regulation its coverage of corporate governance risk management compliance and management of conflicts of interest in financial institutions has broad application in other financial services sectors Chapter 6 of this book is freely available as a downloadable Open Access PDF at <http://www.taylorfrancis.com> under a Creative Commons Attribution Non Commercial No Derivatives CC BY NC ND 4 0 license

**Republic of Moldova** International Monetary Fund. Monetary and Capital Markets Department,2016-03-28 The National Bank of Moldova NBM has made significant progress in reinforcing its prudential and supervisory framework Two medium term strategies have been designed in succession since 2008 to set a forward looking approach for supervision The most recent one spanning four years 2013 17 aims to ensure a higher level of efficiency transparency and performance of the NBM by bringing the best international practices particularly in the area of corporate governance The country is also in the process of transitioning from Basel I to Basel II In the context of an Association Agreement to be signed with the European Union EU 2 the NBM plans to implement the standard risk weighting model of Basel II as well as other elements of Basel III The objective is to enhance the NBM s institutional capacity with the view to foster the banks prudential regulatory framework The association process will also enable NBM to gradually implement the EU Capital Requirements Regulation and Directive CRR CRD

*Management Of Banking And Financial Services, 2/E* Suresh Padmalatha,2011-09 The dynamic banking and financial services environment in the country calls for prudent decision making under pressure Management of Banking and Financial Services provides students and practitioners with a thorough understanding of managerial issues in the banking and financial services industry enabling them to evaluate the overall organisational impact of their decisions The first section of the book focuses on the basic concepts of banking and financial services and the other sections explain how these concepts are applied in the global banking environment as well as in India In addition to presenting the big picture of the banking and financial services industry the book also provides useful tips on the trade off between risk and return

*Bank Regulation* Anna-Karin Stockenstrand,Fredrik Nilsson,2017-01-20 Bank Regulation Effects on Strategy Financial Accounting and Management Control discusses and problematizes how regulation is affecting bank strategies as well as their financial accounting and management control systems Following a period of bank de regulation the new millennium brought a drastic change with many new regulations Some of these are the result of the financial crisis of 2008 2009 Other regulations such as the introduction in 2005 of International Financial Reporting Standards IFRS for quoted companies in the EU can be related to the introduction of a new global accounting regime It is evident from annual reports of banks that the number of new regulations in recent years is high and that they cover many different functional areas The objectives of these regulations are also ambitious to improve governance and control contributing to a high level of financial stability for banks

These objectives are obviously of great concern for an industry that directly and indirectly affects the financial situation not only of individuals and organizations but also nation states Considering the importance of banks in society it is of little surprise that the attention of both scholars and practitioners has been directed towards how banks comply with new regulations and if the intended objectives of the regulations are met This book will be of great value to all those interested in financial stability matters practitioners policy makers students academics as well as to accounting and finance scholars
