

The image features a dense collection of small, square game thumbnails from the Roblox platform, arranged in a grid-like pattern against a black background. Each thumbnail depicts a different virtual environment or game scene, such as a beach with a palm tree, a city street, a character in a blue dress, and various action scenes. The thumbnails are slightly tilted and have a soft glow. In the center of the image, the word "ROBLOX" is written in a large, bold, white, sans-serif font, with the letters appearing to be slightly 3D and floating above the thumbnails.

**Defending Assessment Security in a Digital World** Phillip Dawson, 2020-10-26 *Defending Assessment Security in a Digital World* explores the phenomenon of e-cheating and identifies ways to bolster assessment to ensure that it is secured against threats posed by technology. Taking a multi-disciplinary approach, the book develops the concept of assessment security through research from cybersecurity, game studies, artificial intelligence and surveillance studies. Throughout, there is a rigorous examination of the ways people cheat in different contexts and the effectiveness of different approaches at stopping cheating. This evidence informs the development of standards and metrics for assessment security and ways that assessment design can help address e-cheating. Its new concept of assessment security both complements and challenges traditional notions of academic integrity. By focusing on proactive, principles-based approaches, the book equips educators, technologists and policymakers to address both current e-cheating as well as future threats.
