important role in elucidating the global demand for human rights justice and peace Interreligious education reveals that the creeds and holy books of the world's religions teach about spiritual systems that reject violence and the individualistic pursuit of economic and political gain and call their followers to compassion for every human being It also seeks to lead students to an awareness that the followers of religions across the world need to be and to grow in dialogical relationships of respect and understanding An essential aim of interreligious education is the promotion of understanding and engagement between people of different religions and therefore it has great potential to contribute to the common good of the global community Interreligious education has grown from the interfaith movement whose beginning is usually identified with the World Parliament of Religions held in Chicago in 1893 This was the first time in history that leaders of the eastern and western religions had come together for dialogue and to consider working together for global unity

Edwin Hatch, 1889 *The First Gospel* Arland D. Jacobson, 2005-07-28 The first gospel was not one of the four canonical gospels It was probably Q an early collection of Jesus sayings used by Matthew and Luke to create their gospels Q does not mention Jesus death and resurrection and it contains no birth or childhood stories In Q Jesus is pictured as a prophetic sage *The First Gospel* provides a comprehensive introduction to the Q hypothesis The author reviews and augments the arguments

for the existence of Q He concludes that the Q document was not merely a miscellaneous collection of sayings of Jesus that served as a source for Matthew and Luke He sees it as a gospel in its own right with its own history and own quite distinctive theology
