across the board This standardised service provides the customer with the security of knowing what to expect from that particular organisation However this standardisation allows little room for creativity for individual managers to respond to the particular needs of their local market There is a growing realisation that there is greater profitability if the chain can offer both standardised services across all its retail operations while at the same time allowing local managers the freedom to interpret the needs of its local market as they see fit Hospitality Retail Management shows managers and students how competitive advantage can be gained by adopting management techniques which are both tight and loose and demonstrates how you can manage businesses with well defined objectives while also allowing local managers to interpret their local market as they see fit Conrad Lashley has done extensive consultancy with companies such as McDonalds and uses case studies from these companies to reiterate key issues throughout the text Clint and Zeke: Tales From The Old West (2nd Ed.) Parliament. House of Commons. Business, Innovation and Skills

Committee, 2012 The Business Innovation and Skills Committee publishes a report The Hargreaves Review of Intellectual Property where next as part of its inquiry into the Hargreaves Review of Intellectual Property and Growth The Committee believes further work remains to be done in analysing whether the economic benefits of a parody exception would be as extensive as claimed However other grounds may yet support a change to the law by extending what is legally permissible which would probably help improve public respect for copyright law in general On content mining the Committee agrees that the ability to read published scientific data automatically is useful and needs to be opened up On the the issue of Digital Copyright Exchange the Committee encourages the Government to push forward with this idea provided that the system is kept simple and there is a proper cost benefit analysis On the Government s approach to negotiations on the Unified Patents Court the Committee is concerned about the Government s approach on this A unified patent and litigation system could bring many benefits particularly if the central court were situated in London but the current proposals have not been welcomed by practitioners or industry
