K. Nelson,2013-10-18 First published in 1969 this title explores the origins of Spiritualism as a religious movement The first part is a history of Spiritualism with a focus on its origins within America and the development of the organisation within itself Next Nelson considers the rise of Spiritualism in Britain using evidence taken from contemporary journals other publications and interviews Finally the Spiritualist movement is analysed in terms of sociological theory looking at the Church and the definition of a Cult as well as concepts of authority and leadership This is a fascinating work which will be of great interest to students researching the origins and development of the movement of

Spiritualism and its relationship with society      **Writing Witch-Hunt Histories** Marko Nenonen, Raisa Maria Toivo, 2013-10-02 This book gives an analytical review of the history of witch hunt historiography. So far not much attention has been paid to how the European witch hunts have been studied and explained in some 150 years of academic research on the issue. The history of the approaches and explanations in witch hunt research fundamentally contributes not only to our understanding of the bizarre phenomenon in European history but also contributes to understanding of cultural as well as academic trends which heavily direct any research even when scholars are not cognisant of their underlying premises. How and why the picture of witch hunts has been changing in scholarly works and text books is as illuminating an issue as the proper explanations offered by the research works. Contributors include Rune Blix Hagen, Ronald Hutton, Gunnar W. Knutsen, Marianna G. Muravyeva, Marko Nenonen, Raisa Maria Toivo, Charles Zika.      **The Mage's Images: Heinrich Khunrath in His Oratory and Laboratory, Volume 4** Peter J. Forshaw, 2025-09-09 This is the 4th volume in a 4 volume work entitled *The Mage's Images*. The work provides the first in depth examination of the life and works of Heinrich Khunrath 1560-1605, one of the great Hermetic philosophers whose *Amphitheatre of Eternal Wisdom* 1595-1609 has been described as one of the most important books in the whole literature of theosophical alchemy and the occult sciences. Khunrath is best known for his novel combination of scripture and picture in the complex engravings in his *Amphitheatre*. In this richly illustrated monograph Forshaw analyses occult symbolism with previously unpublished material offering insight into Khunrath's insistence on the necessary combination of alchemy, magic and cabala in *Oratory and Laboratory*.      *A Pictorial Anthology of Witchcraft, Magic & Alchemy* Grillet de Givry, 1958      [The Turin Shroud](#) Lynn Picknett, Clive Prince, 2007-03-26 In this fully revised and updated edition the bestselling authors of *The Templar Revelation* present new and compelling evidence linking Leonardo da Vinci with the forgery of Christianity's most famous relic. For centuries the Turin Shroud was believed to be Christ's authentic burial cloth miraculously imprinted with his image but in 1988 carbon dating revealed it is a medieval or Renaissance era forgery. However authors Lynn Picknett and Clive Prince realized that the 1988 discovery prompted even more questions. The image seems to be a photograph so could the Turin Shroud actually be the world's first photograph? If the face of the man on the Shroud is not Jesus, whose is it? Who had the sheer audacity to create what would become an infamous relic of Christianity, faking even Christ's holy redemptive blood? Whoever did this was not only a genius but also a heretic. After more than a decade of research Picknett and Prince have accumulated evidence that shows not only was the forger of the Turin Shroud none other than Leonardo da Vinci but also that he used his own face for that of Christ. The Turin Shroud is among other things a five hundred year old photograph of Leonardo da Vinci. Could Christianity's greatest relic in fact be an attempt to undermine the religion itself?      **Magic: A History** Chris Gosden, 2020-11-10 An Oxford professor of archaeology explores the unique history of magic, the oldest and most neglected strand of human behavior and its resurgence today. Three great strands of belief run through human history: Religion is the relationship with one god or many gods, masters of our lives

and destinies Science distances us from the world turning us into observers and collectors of knowledge And magic is direct human participation in the universe we have influence on the world around us and the world has influence on us Over the last few centuries magic has developed a bad reputation thanks to the unsavory tactics of shady practitioners and to a successful propaganda campaign on the part of religion and science which denigrated magic as backward irrational and primitive In Magic however the Oxford professor of archaeology Chris Gosden restores magic to its essential place in the history of the world revealing it to be an enduring element of human behavior that plays an important role for individuals and cultures From the curses and charms of ancient Greek Roman and Jewish magic to the shamanistic traditions of Eurasia indigenous America and Africa from the alchemy of the Renaissance to the condemnation of magic in the colonial period and the mysteries of modern quantum physics Gosden s startling fun and colorful history supplies a missing chapter of the story of our civilization Drawing on decades of research around the world touching on the first known horoscope a statue ordered into exile and the mystical power of tattoos Gosden shows what magic can offer us today and how we might use it to rethink our relationship with the world Magic is an original singular and sweeping work of scholarship and its revelations will leave a spell on the reader
