There's no doubt that being a caregiver is one of the hardest things you will ever do in your life But despite the challenges if given a choice most caregivers wouldn't trade it for the world With so much to do day in and day out such as managing medication meal preparation help with bathing and toileting housekeeping shopping errands and trips to doctors it's easy to let precious time slip away But when you are caring for an aging loved one time is the most precious gift we have This journal was created to make it easy to organize your loved one's important medical and caregiving information to make sure all of their daily needs are being taken care of while still making time to connect a top priority With daily prompts to remind us to stop and experience the joy of time spent with our loved one we can forever remember those precious moments long after they have passed There will come a day when our role of caregiver comes to an end My hope is that you will use this journal to record the tiny details of your days together memories you can treasure for years to come to look back on these caregiving days and years not as a time of stress and struggle but as one of shared love and precious moments This journal is a must have for any caregiver Filled with daily inspirational quotes each journal is structured in an easy to organize customizable format that allows you to record **THREE MONTHS** of Daily Journal Entries Pertinent Medical Information Important Medication Information Personal Care Needs Dietary Restrictions Emergency Contact Information Medical Provider Contact Information Month at a Glance Calendars for Appointments Caregiver Weekly Schedules all in one easy to use grab and go book Also Included is a **RESOURCE SECTION** where you can find helpful resources across the United States for your loved one such as Alzheimer's and Dementia services Caregiver Support Groups Social Security Assistance and much more Whether for yourself or a gift for a caregiver you love when it comes to providing comprehensive compassionate care this journal is a tool you won't want to live without

Caregivers Shaneke Roberts,2019-02-06 The role of a caregiver can seem to be never ending Taking care of others while simultaneously taking care of themselves can be challenging Often time s caretakers are left feeling depleted with no time to decompress Journaling is a form of meditation which can be done anytime anywhere This journal will allow caretakers to release while working **Love, Honor and Value** Suzanne Mintz,Suzanne Geffen Mintz,2002 This book is about family caregivers those who are just beginning a caregiving journey and those for whom family caregiving is an integral part of their daily lives **I Care Because I Love** Notesgo Notesflow,2018-07-12 This custom cover I Care Because I Love journal could be utilised for people caring for someone with dementia to write down their emotions and stress in a private space Caring can be a fulfilling but very challenging job and over time can bring a sense of burden to those who take on the role Expressing feelings verbally can be difficult so writing can be an easier and more trusted outlet to do so The interior contains 100 pages of journal style paper for flexible use at home or on the go We would like to thank you for your interest in our item and hope you are satisfied with the order **The Caregiver's Companion** Debra Kelsey-Davis,Kelly Johnson,2020 Every caregiver s story is unique but one thing you all have in common is that you need to be nourished to have the resilience and compassion to tend to the needs of those you love The Caregiver s Companion approaches caregiving not as a burden but as an opportunity to grow and receive graces and blessings Written by the founders of Nourish for Caregivers an organization that seeks to improve the health and spiritual wellbeing of caregivers this beautifully designed full color journal is a practical resource with encouraging readings prayers and guided journaling to help you draw strength from your faith in a few sacred moments each day It is a unique resource to remind you to care for yourself as you care for others The physical financial and emotional demands of caregiving can take an enormous toll and their high stress levels make caregivers a population at risk The Caregiver s Companion provides the encouragement and spiritual nourishment you need to persevere each day whether your role involves hands on caregiving helping from a distance or lending emotional support to a loved one in an assisted living facility Each entry in this beautiful full color guided journal combines prayers meditations reflection questions quotations and plenty of space for personal journaling allowing you to capture the highs and lows of your daily experiences

Journal of a Caregiver: A Story of Love and Devotion Harry J. Deitz, Jr., For six years Harry Deitz was the primary caregiver for his wife as she battled diabetes Parkinson s disease cirrhosis dementia and breast cancer It was a journey of mixed emotions not wanting to lose her yet many times not knowing how he could continue to care for her Caring for her was the most difficult thing he experienced in his life It also was the greatest thing he ever did This is his story of love and devotion for her much of which was recorded in a journal he kept for four years It s a book that will provide perspective and encouragement for anyone who is a caregiver or advocate for a loved one It is not intended as a medical guide or advice It is simply an account of his personal experience in taking care of his wife for six years The experience of every caregiver is unique but this book may help them to understand situations that are similar to what he faced Mainly it will help them to

know that they are not alone 294pp illus Masthof Press 2022 A Journal for Family Caregivers Harriet Hodgson,2016-03 This is Book three in The Family Caregiver s Series The books in this series are designed to support you the family caregiver which in turn will help you be supportive to your loved one While caregiving is love in action it is also a demanding job One that requires a lot of self care to keep us going This journal is a place for thoughts and feelings but also a place to jot down ideas and plans to make the job easier *It's Because I Love You* Linda Joan Arzente Bsn, RN,Linda Joan Arzente Bsn,2012-03 Offers those caring for an aging loved one practical advice to help them cope with the day to day challenges they might face **For Love or Money** Nancy Folbre,2012-09-06 As women moved into the formal labor force in large numbers over the last forty years care work traditionally provided primarily by women has increasingly shifted from the family arena to the market Child care elder care care for the disabled and home care now account for a growing segment of low wage work in the United States and demand for such work will only increase as the baby boom generation ages But the expanding market provision of care has created new economic anxieties and raised pointed questions Why do women continue to do most care work both paid and unpaid Why does care work remain low paid when the quality of care is so highly valued How effective and equitable are public policies toward dependents in the United States In *For Love and Money* an interdisciplinary team of experts explores the theoretical dilemmas of care provision and provides an unprecedented empirical overview of the looming problems for the care sector in the United States Drawing on diverse disciplines and areas of expertise *For Love and Money* develops an innovative framework to analyze existing care policies and suggest potential directions for care policy and future research Contributors Paula England Nancy Folbre and Carrie Leana explore the range of motivations for caregiving such as familial responsibility or limited job prospects and why both love and money can be efficient motivators They also examine why women tend to specialize in the provision of care citing factors like job discrimination social pressure or the personal motivation to provide care reported by many women Suzanne Bianchi Nancy Folbre and Douglas Wolf estimate how much unpaid care is being provided in the United States and show that low income families rely more on unpaid family members for their child and for elder care than do affluent families With low wages and little savings these families often find it difficult to provide care and earn enough money to stay afloat Candace Howes Carrie Leana and Kristin Smith investigate the dynamics within the paid care sector and find problematic wages and working conditions including high turnover inadequate training and a pay penalty for workers who enter care jobs These conditions have consequences poor job quality in child care and adult care also leads to poor care quality In their chapters Janet Gornick Candace Howes and Laura Braslow provide a systematic inventory of public policies that directly shape the provision of care for children or for adults who need personal assistance such as family leave child care tax credits and Medicaid funded long term care They conclude that income and variations in states policies are the greatest factors determining how well and for whom the current system works Despite the demand for care work very little public policy attention has been

devoted to it Only three states for example have enacted paid family leave programs Paid or unpaid care costs those who provide it At the heart of For Love and Money is the understanding that the quality of care work in the United States matters not only for those who receive care but also for society at large which benefits from the nurturance and maintenance of human capabilities As care work gravitates from the family to the formal economy this volume clarifies the pressing need for America to fundamentally rethink its care policies and increase public investment in this increasingly crucial sector
