Witness To War:

Mr. Lincoln Goes to War William Marvel, 2006-05-10 An account of how America's greatest crisis began by the Civil War's master historical detective Stephen W. Sears, author of *Chancellorsville*. This groundbreaking book investigates the mystery of how the Civil War began, reconsidering the big question: Was it inevitable? The award-winning author of *Andersonville* and *Lincoln's Autocrat* vividly recreates President Abraham Lincoln's first year in office, from his inauguration through the rising crisis of secession and the first several months of the war. Drawing on original sources and examining previously overlooked factors, he leads the reader inexorably to the conclusion that Lincoln not only missed opportunities to avoid war but actually fanned the flames and often acted unconstitutionally in prosecuting the war once it had begun. With a keen eye for the telling detail on the battlefield as well as in the White House, this is revisionist history at its best, not sparing anyone, even Abraham Lincoln. A brilliant narrative that reveals the possibilities of the past that were squandered by historical figures who seem so unassailable and godlike to us today. Peter S. Carmichael, author of *The Last Generation*, the most provocative account of events in 1861 in a generation. Readers who think they understand the Civil War's first year and the roles played by Abraham Lincoln, Nathaniel Lyon, Charles Stone, and a host of others should brace themselves for a bold new perspective. A Wilson Greene, author of *Breaking the Backbone of the Rebellion*. **Witness to War** Richard J. Aldrich, 2004 Using compelling material from a startling range of diaries, this work offers a fresh perspective on the experience of ordinary individuals during the Second World War. **Reconstructing the Afghan National Defense and Security Forces** United States. Office of the Special Inspector General for Afghanistan Reconstruction, 2017 [Listening to War](#) J. Martin Daughtry, 2015-09-01 To witness war is in large part to hear it. And to survive it is among other things to have listened to it and to have listened through it. *Listening to War: Sound, Music, Trauma, and Survival in Wartime Iraq* is a groundbreaking study of the centrality of listening to the experience of modern warfare. Based on years of ethnographic interviews with U.S. military service members and Iraqi civilians, as well as on direct observations of wartime Iraq, author J. Martin Daughtry reveals how these populations learned to extract valuable information from the ambient soundscape while struggling with the deleterious effects that it produced in their ears, throughout their bodies, and in their psyches. Daughtry examines the dual-edged nature of sound: its potency as a source of information and a source of trauma within a sophisticated conceptual frame that highlights the affective power of sound and the vulnerability and agency of individual auditors. By theorizing violence through the prism of sound and sound through the prism of violence, Daughtry provides a productive new vantage point for examining these strangely conjoined phenomena. Two chapters dedicated to wartime music in Iraqi and U.S. military contexts show how music was both an important instrument of the military campaign and the victim of a multitude of violent acts throughout the war. A landmark work within the study of conflict, sound studies, and ethnomusicology, *Listening to War* will expand your understanding of the experience of armed violence and the experience of sound more generally. At the

same time it provides a discrete window into the lives of individual Iraqis and Americans struggling to orient themselves within the fog of war *Bills Relating to War Claims Act of 1948 and Trading with the Enemy Act* United States. Committee on Interstate and Foreign Commerce,1952 Russian Schools and Universities in the World War graf Pavel Nikolaevich Ignat'ev,D. M. Odinet[s],1929 The Palgrave Handbook of Artistic and Cultural Responses to War since 1914 Martin Kerby,Margaret Baguley,Janet McDonald,2018-12-05 This handbook explores a diverse range of artistic and cultural responses to modern conflict from Mons in the First World War to Kabul in the twenty first century With over thirty chapters from an international range of contributors ranging from the UK to the US and Australia and working across history art literature and media it offers a significant interdisciplinary contribution to the study of modern war and our artistic and cultural responses to it The handbook is divided into three parts The first part explores how communities and individuals responded to loss and grief by using art and culture to assimilate the experience as an act of survival and resilience The second part explores how conflict exerts a powerful influence on the expression and formation of both individual group racial cultural and national identities and the role played by art literature and education in this process The third part moves beyond the actual experience of conflict and its connection with issues of identity to explore how individuals and society have made use of art and culture to commemorate the war In this way it offers a unique breadth of vision and perspective to explore how conflicts have been both represented and remembered since the early twentieth century
