**Biographical Dictionary of Twentieth-Century Philosophers** Stuart Brown, Diane Collinson, Robert

Wilkinson, 2012-09-10 This Biographical Dictionary provides detailed accounts of the lives, works, influence, and reception of thinkers from all the major philosophical schools and traditions of the twentieth century. This unique volume covers the lives and careers of thinkers from all areas of philosophy, from analytic philosophy to Zen and from formal logic to aesthetics. All the major figures of philosophy, such as Nietzsche, Wittgenstein, and Russell, are examined and analysed. The scope of the work is not merely restricted to the major figures in western philosophy but also covers in depth a significant number of thinkers from the near and far east and from the non-European, Hispanic language communities. The Biographical Dictionary also includes a number of general entries dealing with important schools of philosophy, such as the Vienna Circle, or currents of thought such as vitalism. These allow the reader to set the individual biographies in the context of the philosophical history of the period. With entries written by over 100 leading philosophy scholars, the Biographical Dictionary is the most comprehensive survey of twentieth-century thinkers to date. Structure: The book is structured alphabetically by philosopher. Each entry is identically structured for ease of access and covers nationality, dates, and places of birth and death, philosophical style or school, areas of interest, higher education, significant influences, main appointments, main publications, secondary literature, account of intellectual development, and main ideas, critical reception, and impact. At the end of the book, a glossary gives accounts of the schools, movements, and traditions to which these philosophers belonged, and thorough indexes enable the reader to access the information in several ways: by nationality, by major areas of contribution to philosophy (e.g., aesthetics), by major influences on the thinker concerned (e.g., Plato, Kant, Wittgenstein).

**One Hundred Twentieth-Century Philosophers** Stuart Brown, Diane Collinson, Dr Robert Wilkinson, Robert Wilkinson, 2008-02-20 One Hundred Twentieth Century Philosophers offers biographical information and critical analysis of the life, work, and impact of some of the most significant figures in philosophy this century. Taken from the acclaimed Biographical Dictionary of Twentieth Century Philosophers, the 100 entries are alphabetically organised from Adorno to Zhang Binlin and cover individuals from both continental and analytic philosophy. The entries have an identical four-part structure, making it easy to compare and contrast information comprising biographical details, a bibliography of major works, a listing of relevant secondary and critical literature, an appraisal of the philosopher's thoughts and achievements. A separate glossary provides an introduction to the origins, development, and main features of major philosophical schools and movements, and offers select bibliographies to guide the reader to further research.
