Dale Bloomberg, 2025-04-01 The 101 nuggets of understanding that comprise this book shed light on the required content of
a qualitative dissertation They help readers navigate through the iterative recursive and often messy dissertation process
from its inception to a successful completion right from the planning stage through data collection and analysis all the way to
writing up presenting and publishing Each nugget is posed in the form of a question as if in conversation with the reader and
will hopefully stimulate critical thinking reflection and dialogue This book is the place to turn to for quick though not
simplified answers to key questions based on the latest developments in the field of qualitative research It will motivate
doctoral students or prospective doctoral students to seek and consult additional relevant texts and resources in order to
delve deeper into the many issues involved in preparing for a qualitative dissertation Mystery Solved John G. Laflamme
Ed.D., 2021-12-23 The book covers writing concepts that are overlooked when teaching writing Though the writing process
has contributed greatly to helping students improve their writing very little instruction exists to assist students in
understanding how to organize the ideas once they have generated them Students need to be adept at identifying the
function of each sentence in a paragraph Too often students write general statements about a topic and do not provide the
concrete details needed to help the reader understand the point Teachers also want rigor in the writing curriculum but that
often means assigning more and longer essays A rigorous writing curriculum can challenge students without adding to a
teacher s correction load This book helps teachers achieve that balance A Multidisciplinary Exploration into Flow in
Writing Deborah F. Rossen-Knill, Katherine L. Schaefer, Matthew W. Bayne, Whitney Gegg-Harrison, Dev Crasta, Alessandra
DiMauro, 2024-04-05 Offering a multidisciplinary exploration of flow and the often nebulous ways it is conceptualized and
operationalized in writing pedagogy this book addresses a critical gap in writing studies Bringing together practice based
and scholarly perceptions it outlines the key features and definitions of flow and identifies pedagogical approaches and
opportunities for classroom instruction Incorporating perspectives from disciplines including classical rhetoric composition
studies cognitive science and linguistics this book provides a diverse overview of the literature on flow in writing pedagogy It
includes two instructional voice based and rhetorical grammar based activities that outline how to recognize and improve
flow in writing In doing so the book also provides clear examples of how to create an inclusive writing pedagogy that
incorporates sensory and analytical perspectives to help readers and writers experience flow and meet their writing goals As
an exploration of flow instruction as it currently stands and might stand in the future this book will be of interest to students

and instructors in the field of academic professional and creative writing studies The Open Access version of this book available at www.taylorfrancis.com has been made available under a Creative Commons Attribution Non Commercial No Derivatives CC BY NC ND 4.0 license
