**Professional Academic Writing in the Humanities and Social Sciences** Susan Peck MacDonald,2010-08-20 In Professional Academic Writing in the Humanities and Social Sciences Susan Peck MacDonald tackles important and often controversial contemporary questions regarding the rhetoric of inquiry the social construction of knowledge and the professionalization of the academy MacDonald argues that the academy has devoted more effort to analyzing theory and method than to analyzing its own texts Professional texts need further attention because they not only create but are also shaped by the knowledge that is special to each discipline Her assumption is that knowledge making is the distinctive activity of the academy at the professional level for that reason it is important to examine differences in the ways the professional texts of subdisciplinary communities focus on and consolidate knowledge within their fields Throughout the book MacDonald stresses her conviction that academics need to do a better job of explaining their text making axioms clarifying their expectations of students at all levels and monitoring their own professional practices MacDonald s proposals for both textual and sentence level analysis will help academic professionals better understand how they might improve communication within their professional communities and with their students

**Guide to Writing Empirical Papers, Theses, and Dissertations** G. David Garson,2001-11-21 Describes the quantitative research process framing analytical questions developing a comprehensive outline providing a roadmap for the reader and accessing indispensable computer and program tools Supplies end of chapter checklists extensive examples and bibliographies Writing in the Academic Disciplines David R. Russell,2002 To understand the ways students learn to write we must go beyond the small and all too often marginalized component of the curriculum that treats writing explicitly and look at the broader though largely tacit traditions students encounter in the whole curriculum explains David R Russell in the introduction to this singular study The updated edition provides a comprehensive history of writing instruction outside general composition courses in American secondary and higher education from the founding public secondary schools and research universities in the 1870s through the spread of the writing across the curriculum movement in the 1980s through the WAC efforts in contemporary curriculums
