TALEB, 2021-05-04 The landmark five book series all together in one boxed set The Incerto is an investigation of opacity luck uncertainty probability human error risk and decision making when we don t understand the world expressed in the form of a personal essay with autobiographical sections stories parables and philosophical historical and scientific discussions in non overlapping volumes that can be accessed in any order The main thread is that while there is inordinate uncertainty about what is going on there is great certainty as to what one should do about it This boxed set includes FOOLED BY RANDOMNESS THE BLACK SWAN THE BED OF PROCRUSTES ANTIFRAGILE SKIN IN THE GAME **Foiled by Randomness** Nassim Nicholas Taleb, 2016 Nassim Nicholas Taleb s landmark Incerto series is an investigation of luck uncertainty probability opacity human error risk disorder and decision making in a world we don t understand in nonoverlapping and standalone books All four volumes Antifragile The Black Swan Fooled by Randomness and the expanded edition of The Bed of Procrustes updated with more than 50 percent new material are now together in one boxed set ANTIFRAGILE Startling richly crammed with insights stories fine phrases and intriguing asides The Wall Street Journal Just as human bones get stronger when subjected to stress and tension many things in life benefit from disorder volatility and turmoil What Taleb has identified and calls antifragile is that category of things that not only gain from chaos but need it in order to survive and flourish The resilient resists shocks and stays the same the antifragile gets better and better What is crucial is that the antifragile loves errors as it incurs small harm and large benefits from them Spanning politics urban planning war personal finance economic systems and medicine in an interdisciplinary and erudite style Antifragile is a blueprint for living in a Black Swan world THE BLACK SWAN A book that altered modern thinking The Times London A black swan is a highly improbable event with three principal characteristics It is unpredictable it carries a massive impact and after the fact we concoct an explanation that makes it

appear less random and more predictable The astonishing success of Google was a black swan so was 9 11 In this groundbreaking and prophetic book Taleb shows that black swan events underlie almost everything about our world from the rise of religions to events in our own personal lives and yet we especially the experts are blind to them FOOLED BY RANDOMNESS Fooled by Randomness is to conventional Wall Street wisdom approximately what Martin Luther s ninety five theses were to the Catholic Church Malcolm Gladwell The New Yorker Are we capable of distinguishing the fortunate charlatan from the genuine visionary Must we always try to uncover nonexistent messages in random events Fooled by Randomness is about luck more precisely about how we perceive luck in our personal and professional experiences Set against the backdrop of the most conspicuous forum in which luck is mistaken for skill the markets Fooled by Randomness is an irreverent eye opening and endlessly entertaining exploration of one of the least understood forces in our lives THE BED OF PROCRUSTES Taleb s crystalline nuggets of thought stand alone like esoteric poems Financial Times This collection of aphorisms and meditations expresses Taleb s major ideas in ways you least expect The Bed of Procrustes takes its title from Greek mythology the story of a man who made his visitors fit his bed to perfection by either stretching them or cutting their limbs With a rare combination of pointed wit and potent wisdom Taleb plows through human illusions contrasting the classical views of courage elegance and erudition against the modern diseases of nerdiness philistinism and phoniness

The Black Swan Nassim Nicholas Taleb,2009-10-13 In the author s point of view a black swan is an improbable event with three principal characteristics It is unpredictable it carries a massive impact and after the fact we concoct an explanation that makes it appear less random and more predictable than it was Why do we not acknowledge the phenomenon of black swans until after they occur Part of the answer according to Taleb is that humans are hardwired to learn specifics when they should be focused on generalities We concentrate on things we already know and time and time again fail to take into consideration what we don t know We are therefore unable to truly estimate opportunities too vulnerable to the impulse to simplify narrate and categorize and not open enough to rewarding those who can imagine the impossible *The Black Swan: Second Edition* Nassim Nicholas Taleb,2010-05-11 The most influential book of the past seventy five years a groundbreaking exploration of everything we know about what we don t know now with a new section called On Robustness and Fragility A black swan is a highly improbable event with three principal characteristics It is unpredictable it carries a massive impact and after the fact we concoct an explanation that makes it appear less random and more predictable than it was The astonishing success of Google was a black swan so was 9 11 For Nassim Nicholas Taleb black swans underlie almost everything about our world from the rise of religions to events in our own personal lives Why do we not acknowledge the phenomenon of black swans until after they occur Part of the answer according to Taleb is that humans are hardwired to learn specifics when they should be focused on generalities We concentrate on things we already know and time and time again fail to take into consideration what we don t know We are therefore unable to truly estimate opportunities too

vulnerable to the impulse to simplify narrate and categorize and not open enough to rewarding those who can imagine the impossible For years Taleb has studied how we fool ourselves into thinking we know more than we actually do We restrict our thinking to the irrelevant and inconsequential while large events continue to surprise us and shape our world In this revelatory book Taleb will change the way you look at the world and this second edition features a new philosophical and empirical essay On Robustness and Fragility which offers tools to navigate and exploit a Black Swan world Taleb is a vastly entertaining writer with wit irreverence and unusual stories to tell He has a polymathic command of subjects ranging from cognitive science to business to probability theory Elegant startling and universal in its applications The Black Swan is a landmark book itself a black swan

Incerto 5-Book Bundle Nassim Nicholas Taleb,2021-05-04 The landmark five book series all together in one ebook bundle The Incerto is an investigation of opacity luck uncertainty probability human error risk and decision making when we don t understand the world expressed in the form of a personal essay with autobiographical sections stories parables and philosophical historical and scientific discussions in non overlapping volumes that can be accessed in any order The main thread is that while there is inordinate uncertainty about what is going on there is great certainty as to what one should do about it This ebook bundle includes FOOLED BY RANDOMNESS THE BLACK SWAN THE BED OF PROCURSTES ANTIFRAGILE SKIN IN THE GAME

The Rat Catcher Andrew Laszlo,2004-07 The Rat Catcher is a who dun it when the doer is cheered on as

The Rat sets out to execute the perpetrators of the Holocaust who received no punishment or merely a slap on the wrist for their gruesome crimes. The executions are vivid and gruesome, befitting the crimes of the perpetrators. A Hungarian super sleuth and a NYPD senior detective are assigned the task of running down and bringing to justice the serial killer. Their chase runs over three continents and altogether takes ten years. They never do manage to catch The Rat, and the identity of the serial killer even after 25 killings, executions, remains a mystery to all but the NYPD detective and the reader. A great story well told by a retired cinematographer, SHOGUN, his most famous credit, who knows how to lay out a vivid scene. [Bookseller and the Stationery Trades' Journal](#), 1980
