Current Commercial Cases 1992 Mark Stranex,1992 *Assurant, Inc.: Securities and Exchange Commission Litigation Complaint* , **The Big Book of Massey Tractors** Robert N. Pripps,2006 This is the first full scale history of one of the largest farm tractor manufacturers of all time peppered with pictures of Massey Harris Ferguson and Massey Ferguson s historic models collectibles sales memorabilia and advertisements from old farm magazines The Big Book of Massey Tractors tells the story of the mergers and machines that formed Massey Ferguson over several decades and because these machines dominated Canadian farms for almost a century in many ways it also tells the story of Canadian agriculture Robert Pripps a longtime tractor aficionado describes Massey Ferguson s battle with Ford over dominance of the farm tractor industry a battle the company eventually won remarkably enough in view of its initial abject market failure with tractors From the company s beginnings in 1891 to its 1953 merger with the Ferguson tractor company to its current ownership by Allis Gleaner Company AGCO Masseys have played a large role in our agricultural history The Big Book of Massey Tractors celebrates that role and showcases the machines that have helped turn the earth for over a hundred years *Harvesting the Blackberry* Graham Tubbs,Terry Gillett,2011 In the mid 1990s almost nobody knew what the Internet was The few businesspeople and hardcore geeks who used electronic mail had to hunt for telephone connectors so they could hook up their laptops on the move Cell phones were bulky and expensive One way pagers delivered only short messages Texting didn t exist One of the driving forces behind the wirelessly connected world we take for granted today was the emergence of the BlackBerry In 1995 a tiny company from Ontario Research in Motion conceived of an e mail device that users could wear on their belts To reduce the amount of space required by the electronic components RIM needed to partner with a semiconductor company that could integrate the different functions into one microchip Enter Intel Though the BlackBerry s success seems like a foregone conclusion today both operations faced enormous challenges *Harvesting the BlackBerry* offers an insider s perspective on how the world s number one semiconductor company and an unknown start up overcame technical obstacles and internal politics to produce one of the most ubiquitous computing devices of our time Decisions and Orders of the National Labor Relations Board United States. National Labor Relations Board,1961 **Nontimber Forest Products in the United States** Eric T. Jones,Rebecca Jean McLain,James F. Weigand,2002 A quiet revolution is taking place in America s forests Once seen primarily as stands of timber our woodlands are now prized as a rich source of a wide range of commodities from wild mushrooms and maple sugar to hundreds of medicinal plants whose uses have only begun to be fully realized Now as timber harvesting becomes more mechanized and requires less labor the image of the lumberjack is being replaced by that of the forager This book provides the first comprehensive examination of nontimber forest products NTFPs in the United States illustrating their diverse importance describing the people who harvest them and outlining the steps that are being taken to ensure access to them As the first extensive national overview of NTFP policy and

management specific to the United States it brings together research from numerous disciplines and analytical perspectives such as economics mycology history ecology law entomology forestry geography and anthropology in order to provide a cohesive picture of the current and potential role of NTFPs The contributors review the state of scientific knowledge of NTFPs by offering a survey of commercial and noncommercial products an overview of uses and users and discussions of sustainable management issues associated with ecology cultural traditions forest policy and commerce They examine some of the major social economic and biological benefits of NTFPs while also addressing the potential negative consequences of NTFP harvesting on forest ecosystems and on NTFP species populations Within this wealth of information are rich accounts of NTFP use drawn from all parts of the American landscape from the Pacific Northwest to the Caribbean From honey production to a review of nontimber forest economies still active in the United States such as the Ojibway harvest of plants recounted here the book takes in the whole breadth of recent NTFP issues including ecological concerns associated with the expansion of NTFP markets and NTFP tenure issues on federally managed lands No other volume offers such a comprehensive overview of NTFPs in North America By examining all aspects of these products it contributes to the development of more sophisticated policy and management frameworks for not only ensuring their ongoing use but also protecting the future of our forests

The Taste of Place Amy B. Trubek, 2008-05-05 How and why do we think about food taste it and cook it While much has been written about the concept of terroir as it relates to wine in this vibrant personal book Amy Trubek a pioneering voice in the new culinary revolution expands the concept of terroir beyond wine and into cuisine and culture more broadly Bringing together lively stories of people farming cooking and eating she focuses on a series of examples ranging from shagbark hickory nuts in Wisconsin and maple syrup in Vermont to wines from northern California She explains how the complex concepts of terroir and go t de terroir are instrumental to France s food and wine culture and then explores the multifaceted connections between taste and place in both cuisine and agriculture in the United States How can we reclaim the taste of place and what can it mean for us in a country where on average any food has traveled at least fifteen hundred miles from farm to table Written for anyone interested in food this book shows how the taste of place matters now and how it can mediate between our local desires and our global reality to define and challenge American food practices
