The Hawker Hurricane:

The Hawker Hurricane Francis K. Mason, 1962 *Hurricane* John Dibbs, Tony Holmes, Gordon Riley, 2017-05-18 2017 marks the 80th anniversary of the remarkable Hawker Hurricane formally entering service The RAF's first monoplane fighter it dragged the Air Force into a position where it could defend Britain in her hour of need The true workhorse of the RAF the Hurricane came into its own in the hot summer months of 1940 valiantly defending the skies above Britain Outnumbering Spitfires three to one the Hurricane also downed far more enemy aircraft Without the obvious elegance of the Me 109 or the Spitfire the Hurricane was nonetheless beloved by its pilots for its ability to simultaneously take a battering and inflict serious damage from its remarkably stable gun platform This stunning book reveals the Hurricane in all its glory from fascinating first hand accounts from the men who flew her to the truly breath taking images from John Dibbs of the Hurricanes still in flight today This lavish fully illustrated edition is a must have for all fans of aviation history [The Secret History of the Hawker Hurricane](#) J W Greene, 2025-12-30 The Secret History of the Hawker Hurricane The Hawker Hurricane is often remembered as the Spitfire's sturdier companion vital at the beginning overshadowed soon after The Secret History of the Hawker Hurricane tells the fuller truer story This book follows the Hurricane from its uncertain beginnings as an ungainly hybrid of wood fabric and steel through its emergence as one of the first truly modern fighters of the age It explores how an aircraft Britain nearly overlooked became the dependable backbone of early wartime air defence flown hard adapted quickly and trusted by pilots who valued honesty over elegance Beyond the familiar skies of 1940 the story widens The Hurricane's career stretched into night fighting experiments cannon trials strange variants desert warfare and naval improvisation where practicality mattered more than perfection Its supposedly old fashioned construction often proved an advantage damaged aircraft could be repaired and returned to service with remarkable speed even in sand heat and shortage while more refined machines waited for parts and conditions they rarely received At the heart of the Hurricane's story are the people who made it work Women who built it instructors who trained thousands of pilots in it ferry pilots who delivered it across continents and ground crews who kept tired airframes flying long after glamour had moved elsewhere Some Hurricanes even launched from merchant ships on one way missions intercepting attackers with no expectation of landing on a deck again As newer fighters took centre stage the Hurricane did not vanish It adapted absorbing risk filling gaps teaching the next generation and fading gradually rather than failing suddenly By the later years of the war many pilots first encountered the Hurricane not as a legend but as a hard worked dependable machine already carrying the weight of history Written with clarity warmth and respect for lived experience The Secret History of the Hawker Hurricane is neither a technical manual nor a simple celebration It is a study of practicality over glamour of systems over spectacle and of quiet resolve in the face of relentless demand In the end the Hurricane endures not because it dazzled but because it worked and because it reflects something deeper about how wars are actually won **Hawker Hurricane and Sea Hurricane** Tony

O'Toole, Martin Derry, Neil Robinson, 2014-12-01 This fully illustrated volume examines the legendary RAF fighter with full details on its WWII service and design modifications The Hawker Hurricane was aeronautical engineer Sidney Camm's masterpiece The fighter entered Royal Air Force service in 1937 and quickly became one of the most important aircraft in Britain's military arsenal especially in the first three years of the Second World War It served in every wartime theatre from Norway and France to the Battle of Britain the defense of Malta the campaigns in the Western Desert the Russian Front and in the Far East where it saw service until the end of hostilities Martin Derry offers a concise yet informative history of the Hurricane's development operational career and design improvements including many contemporary photographs with detailed captions a 16 page color illustration section offering profiles and 2 views of 48 separate aircraft and finally a section prepared by master maker Tony O Toole listing and illustrating the plastic model kits of the Hurricane available in all scales

The Hawker Hurricane I Francis K. Mason, 1966 **Hawker Hurricane** Edward Shacklady, 2000 A history of the Hawker Hurricane **The Hawker Hurricane I**, 1982 *The Hawker Hurricane Mk I & Mk II* Phil H Listemann, 2022-06-02 The Hawker Hurricane was the first of the modern fighter types to begin re equipping the RAF in the 1930s As the RAF was undergoing a massive expansion in the mid thirties the Hurricane which performed well during its trials was soon ordered in large numbers In June 1936 the first order was placed for 600 aircraft In November 1938 just after the Munich Crisis another order was placed for 1000 When war broke out almost 500 Hurricanes had been delivered to Fighter Command and that number had reached 2300 one year later The Hurricane remained the backbone of the RAF's fighter force at least until 1942 in Europe 1943 in the Mediterranean and the Middle East and 1944 in the Far East when more modern types were introduced or became more plentiful It remained in frontline inventory in the Middle and Far East until the very last days of the war Indeed while the Hurricane as a pure fighter was easily obsolete by that time it proved to be a fine fighter bomber The Hurricane was involved in most of the first combats against the Luftwaffe over France and then over Britain The basic model was continually improved and the Mk II appeared in 1941 In 1940 American volunteers began to reach the UK to enlist in the RAF to fight against the Luftwaffe Once trained they formed their own units called the Eagle squadrons and in 1940 1941 three fighter squadrons were formed Nos 71 121 and 133 equipped with Hurricanes The Americans pilots would soon claim their first victories over the Luftwaffe 30 photos 5 profiles **The Hawker Hurricane Mk I & Mk II: The Canadians** Phil H. Listemann, 2018-06-22 The Hawker Hurricane was the first of the modern fighter types to begin re equipping the RAF in the 1930s As the RAF was undergoing a massive expansion in the mid thirties the Hurricane which performed well during its trials was soon ordered in large numbers In June 1936 the first order was placed for 600 aircraft In November 1938 just after the Munich Crisis another order was placed for 1000 When war broke out almost 500 Hurricanes had been delivered to Fighter Command and that number had reached 2300 one year later The Hurricane remained the backbone of the RAF's fighter force at least until 1942 in Europe 1943 in the Mediterranean and the

Middle East and 1944 in the Far East when more modern types were introduced or became more plentiful. It remained in frontline inventory in the Middle and Far East until the very last days of the war. Indeed, while the Hurricane as a pure fighter was easily obsolete by that time, it proved to be a fine fighter-bomber. The Hurricane was involved in most of the first combats against the Luftwaffe over France and then over Britain. The basic model was continually improved and the Mk II appeared in 1941. Being an impressive aircraft at the end of the thirties, the Hurricane attracted interest from foreign countries and the Dominions. Before the war and just after the war broke out, the Hurricane was exported, including to Canada. This book focuses on the connection between the Hurricane and the Canadians, which took various aspects in the UK with No 242 Canadian Squadron up to July 1940, No 1 Squadron RCAF during the Battle of Britain, and after later No 401 Squadron and No 402 Squadron. The Canadians used also the Hurricane in the Middle East with No 417 Squadron. The book relates also the little known usage of the Hurricane with the RCAF in Canada: Hurricane Mk X, XI, and XII. Illustrated with close to 60 photos and 10 colour profiles.

Hurricane Jacky Hyams, 2023-06-01. Britain's first ever wartime fighter plane, the Hawker Hurricane shot down more enemy planes than any other fighter. It was the true aviation hero of the Battle of Britain and fought in all the major missions of the Second World War. Hawker Hurricane MIKE. LEPINE, 2024-08-20. The Hawker Hurricane was a British single-seat fighter aircraft that played a crucial role in the Royal Air Force during World War II. It was one of the main British fighter aircraft during the early stages of World War II and saw extensive service during the Battle of Britain in 1940, where it played a vital role in the defence against German air raids. Designed by Sydney Camm, the Hawker Hurricane had a more traditional design compared to the sleeker Supermarine Spitfire. It featured a fabric-covered frame and a metal wing and was powered by a Rolls-Royce Merlin engine. Armed with eight .303 inch Browning machine guns, with later versions of the aircraft equipped with twelve machine guns or a combination of machine guns and cannons. The Hurricane went through various modifications and upgrades during its production. It served not only as a fighter but also in other roles such as ground attack and naval operations. The Hurricane was largely replaced by more advanced aircraft later in the war but continued to serve in various roles, including in North Africa, the Mediterranean, and the Eastern Front. Some were also used for reconnaissance and training.

Hawker Hurricane Survivors Gordon Riley, 2015-10-19. A comprehensive catalog of the remaining World War II fighter planes, including anecdotes and photos. With 2015 being the 75th anniversary of the Battle of Britain, arguably the Hawker Hurricane's finest hour, it is appropriate to tell the story of the surviving Hurricanes from around the world. Building on research originally started thirty years ago, Gordon Riley has delved into the archives to amass new information and in the process managed to identify positively one Hurricane that had proved elusive for more than forty years. Today a number of Hurricanes are being privately restored globally. However, the oldest in existence is a veteran of both the British Expeditionary

Force to France in 1939 and the Battle of Britain is displayed in the Science Museum in London and the youngest the very last Hurricane ever built is still flying with the RAF Battle of Britain Memorial Flight This book documents each aircraft by country of origin and mark by mark from the day it left the factory up to the present day Some have incredible histories whereas others served in very mundane but still essential second line roles until they were disposed of Where possible each aircraft is illustrated with a present day photograph along with others taken throughout its life From the serious enthusiast to the casual museum or air show visitor if you have an interest in the Hurricane this is the book for you Heavily illustrated and well produced and will serve as an excellent guide not only for historians but also warbird enthusiasts Air Classics

Hawker Hurricane Dominique Breffort,2010-12-01 The Hawker Hurricane is actually Battle of Britain s number one fighter even if the Spitfire is better known Manned by the greatest British Commonwealth and Allied fighter pilots the Hurricane has flown its bulky fuselage from the sky of England to the Russian steppes from the waters of the North Atlantic to the sands of the Western Desert At last the extraordinary career if not the best known of this unique fighter is given justice by this book **The Hawker Hurricane** Robert Jackson,1988 **Ten Squadrons of Hurricanes** Adrian

Stewart,2016-08-31 For many years the importance and contribution of the Hawker Hurricane was eclipsed by the Spitfire but statistically the Hurricane was superior in the majority of cases Thanks to Tommy Sopwith s initiative and gamble the Hurricane was ready at the outbreak of the Second World War and in service throughout As this superbly researched book reveals by examining the roles actions and personalities of ten Hurricane squadrons this iconic aircraft was not only exceptionally robust but astonishingly versatile We track its performance from the Battle of France and Britain through the Middle East Italy and on to Burma It excelled as day and night interceptor intruder and importantly as a rocket firing tank buster The Hurricane inspired great loyalty among its pilots and their colourful personalities and thrilling experiences make this splendid book an informative and entertaining read HAWKER HURRICANE RICHARD A. FRANKS,2020 Hawker Hurricane Ron Mackay,2018 The Hawker Hurricane has rightly earned its place in military aviation annals Although only preceding the Spitfire by four months in its prototypic launch the Hawker machine was available in measurably greater numbers by the Battle of Britain a very critical stage of WWII for Britain and its Empire Its rugged qualities saw use in the Mediterranean and Far East Theaters and on the Russia Front It adapted equally well to naval operations as a CAM ship protector for Allied convoys and then as the first truly modern British fighter design to operate off the Fleet Air Arm s aircraft carriers The solid wing structure lent itself naturally to the carriage of bombs and heavier scale weaponry such as the 40 mm cannon that dealt out a fair measure of punishment The few airworthy examples are a poignant reminder of Britain s WWII aviation prowess Part of the Legends of Warfare series **The Hawker Hurricane IIC.** Francis K. Mason,1965
