Information and Communication Technology in Physical Education Dr. Rakesh Gupta,2021-05-19 Information and Communication Technology ICT is an extended term for Information Technology IT which stresses the role of unified communications The term ICT is also used to refer to the convergence of audio visual and telephone networks with computer networks through a single cabling or link system There are large economic incentives huge cost savings due to elimination of the telephone network to merge the telephone network with the computer network system using a single unified system of cabling signal distribution and management However ICT has no universal definition as the concepts methods and

applications involved in ICT are constantly evolving on an almost daily basis. The broadness of ICT covers any product that will store, retrieve, manipulate, transmit, or receive information electronically in a digital form, e.g., personal computers, digital television, email, robots. For clarity, Zuppo provided an ICT hierarchy where all levels of the hierarchy contain some degree of commonality in that they are related to technologies that facilitate the transfer of information and various types of electronically mediated communications.

Skills Framework for the Information Age is one of many models for describing and managing competencies for ICT professionals for the 21st century. Physical education, also known as Phys Ed, PE, Gym, or Gym class, and known in many Commonwealth countries as physical training or PT, is an educational course related to maintaining the human body through physical exercises, i.e., calisthenics. It is taken during primary and secondary education and encourages psychomotor learning in a play or movement exploration setting to promote health.

Information and Communication Technologies (ICT) in the field of physical education by the professed and the students. Finally, the main problems related to the use of these technologies in classrooms are analyzed. All this in order to shed light on a very topical issue regarding the education of our youth. Studies show that ICTs are increasingly present in the field of physical education, but much remains to be done to make an effective use of them in education.
