Wisdom Of The Millennium:

Wisdom for the New Millennium Ravi Shankar,2005 Excerpts from Wisdom For The New Millennium The whole world is made up of love you have heard this before All is God and all is love Then what is the purpose of life if everything is already God Where is life heading to Life is heading toward per Millennium David Maybury-Lewis,1994-09-01 **Millennium**,1992 *Ancient wisdom, modern world : ethics for the new millennium* Dalai Lama XIV,2000 Millennium David Maybury-Lewis,1992-01-01 Looks toward the tribal societies that Western civilization has swept aside for insight into how their traditions may be able to prevent humans from destroying themselves in the next millennium Ancient Wisdom, Modern World Dalai Lama XIV,Dalai Lama XIV Bstan-'dzin-rgya-mtsho,Alexander Norman,1999 At a time and in a culture where science and technology have taken over from religious belief when ethics are understood primarily in terms of aesthetic choice or legality how are we to formulate moral principles to guide us in our daily lives Though religion can certainly help in this the Dalai Lama demonstrates that there are universal principles we can draw on which transcend the dilemma of belief or unbelief And whilst many have been content to speak of spiritual matters as something mysterious or evanescent the Dalai Lama explains his approach in terms that are as clear and concise as they are compelling With wit gentle good sense and with penetrating insight the Dalai Lama shows how the truths that have stood the test of generations of practise can provide us with the tools to live happy fulfilled and meaningful lives In the process it becomes apparent that he does not merely espouse the feelgood religiosity some accuse him of The reader is left admiring not just the wisdom of the author but the wisdom of the culture he represents MahaManan: The only scientific way to real human development and world peace! Sumeru Ray (Maharshi MahaManas),2022-12-20 Mind developing education is the only scientific way to real human development Real human development and world peace can only be achieved if proper mind developmental education and training are introduced all over the world In this dire critical condition of the juncture of the age to remove the sufferings of the people and to establish real human development and world peace the great Indian sage Maharishi MahaManas has appeared as the need of the time Many consider him to be an incarnation of Lord Shiva Pure spiritual renaissance is about to take place through an epoch making revolutionary movement on the path indicated by him If you are willing to join the great revolutionary movement to create a conscious illuminated new age freed from the darkness of ignorance and blind faith you are welcome Sumeru Ray alias Maharshi MahaManas who has been working tirelessly almost all his life for real human development Here is the essence of Maharshi MahaManas s logic and science based modern doctrine called MahaVad The root cause of most man made problems suffering and misery is lack of sufficient knowledge and consciousness and mental illness Blind faith blind devotion superstition and violence hatred terrorism have all arisen from that Real human development and world peace can only be achieved if proper mind development education and training are introduced all over the world And if real human development takes place then most of the human centered problems will be

solved True Spiritual Revolution not so called religious spirituality is the only way to real Human Development and World Peace And Real human development and world peace can be achieved only through mind developing education Maharshi MahaManas For this purpose after about fifty years of research and effort Maharshi MahaManas has developed an excellent mind development education system called MahaManan If you are interested to know more about this please do a Google search Maharshi MahaManas MahaManan Sumeru Ray Mind developing education can be imparted in two ways The first is through institutional education and the second is through humanistic religious education [MahaDharma](#) Maharshi MahaManas,2023-01-01 As per the need of the times to create a new age free from blind faith and superstitions and to bring radical auspicious changes in human life a great revolutionary religion called MahaDharma emerged It should be welcomed for our own good The only way to real human development and world peace is this simple path of self development Those interested to know in detail search Google Sponsors organizers and members welcome [Millennium](#) ,1982* *God Speaks on Life* Ivan Sokolov,1999-10-01 [The Absolute Wisdom of the Millennium](#) Sadguru Maharshi Mahamanas,2021-03-27 Most of the precious words of the great sage Maharshi MahaManas compiled here have been collected from the greatest doctrine of this time MahaVad Mahaism Summary of MahaVad The greatest doctrine of the time written by Maharshi MahaManas Blind faith or superstition is one of the main causes of most of the problems in the human world At the root of most complex humanized problems are ignorance blindness and physical and mental illness Lack of adequate consciousness and lack of knowledge or ignorance are the main causes of most human suffering and problems ManavDharma or basic Human religion does not only mean becoming honest and kind and compassionate ManavDharma is the innate religion of man the fundamental religion Religion of spontaneous self development We have forgotten that human religion and are obsessed with various imposed religions and iniquities It is very difficult to express the words Dharma and Manav Dharma correctly in English Yet I have tried my best Although Dharma and religion are not one thing in the conventional sense Dharma is called religion Just as the Dharma quality of water the Dharma of fire so in the case of man Dharma is the religion or quality of his simple behavior or disposition Man through his nature simple behavior spontaneously acquires knowledge experience and consciousness progresses along the path of development of the mind and at one time attains maturation or full human being Became a man of full developed mind ManavDharma or Human religion is the way forward for the development of human mind In the case of imposed Dharma religion by holding or adopting which system people can live well and develop quickly that is Dharma religion It is not a Dharma religion to pursue miracles or false temptations it is Adharma unrighteous act You are human because you have a Conscious Mind But your conscious mind is not yet developed enough You have to develop this mind to become a well developed human being And this is your primary religious work The development of the country and the entire human race is possible only through the development of the individual mind The development of the country and the human race will be possible only if the right mind development

education system can be introduced for the purpose of real mental development of the people universally The root causes of poverty are ignorance blindness and blind faith which are due to lack of knowledge and consciousness with physical and mental illness People have so many problems sorrows and misery due to lack of sufficient consciousness And the biggest obstacles to the development of this consciousness are religion monarchy now politics and the business system They never wanted the development of human consciousness in their own interest Rather they are always trying to make people ignorant and blind fools You have born as a human being so the first and foremost goal of your life is to become a full fledged human being Your main Dharma religion is to know yourself and this worldly system and always moving forward consciously to become a real developed human being It is not your Dharma religion to run after an imaginary god for the sake of gaining grace or something else We came here for a short time on an educational trip Gaining high to higher consciousness is the underlying purpose of human life Here we will benefit as much as we can become richer in consciousness through the experience of knowledge
