Juliana Claassens, 2018-09-17 In light of the numerous challenges posed by globalization living together as humanity on one planet needs to be reinvented in the twenty first century To create a new peaceful just and sustainable world order is vital to the survival of us all In this regard humankind will have to expand the limited scope of its moral imagination beyond the borders of family tribe class religion nation and culture Will the cultivation of compassion as scholars like Martha Nussbaum and Karen Armstrong and religious leaders like the Dalai Lama maintain contribute to a more just world A global movement to cultivate and extend compassion beyond the immediate circle of concern may indeed find inspiration from many different religious traditions The question at the heart of this book is whether the Christian legacy provides us with sources of moral imagination needed to guide us into the global era Can the Christian practice of faith contribute to a more compassionate world If so how And is it true that compassion is what we need or do we need something else justice for example In Considering Compassion colleagues from different theological disciplines at Stellenbosch South Africa and Groningen Netherlands take up these challenging questions from a variety of interdisciplinary angles *Noah BenShea's The Journey to Greatness National Public Television Edition* Noah benShea, 2008-12-11 There is no greater challenge in any of our lives than the opportunity to become as great as we might yet be The Journey to Greatness introduces the components that one encounters along the journey to greatness and the realization that this is a journey for all of us each in our own way Noah benShea explores what constitutes greatness highlights all the way stations that we may all encounter on our own unique journeys and aligns the journey to leadership and learning Organized topically around doors or stops

along the way this book first challenges readers to identify the areas in which they have strengths and weakness encouraging the reader to work through the book accordingly Doors include the following Knowing little fear Observation and self witnessing Learning Responsibility Communication Culture and climate Change and resiliency Personal growth Empowerment Handling adversity Embracing opportunity among others ben Shea concludes by encouraging the reader to celebrate achieving the journey to greatness but not to presume that learning ever stops or the journey ever ends Greatness is like the horizon it retreats as you approach it Greatness too is more how we travel than where we travel a process not an arrival
