Without consent or contract Nicholas Scott Cardell,1990
Cardell,1992 **Slavery in the Development of the Americas** David Eltis, Frank D. Lewis, Kenneth L. Sokoloff, 2004-03-29
Slavery in the Development of the Americas brings together work from leading historians and economic historians of slavery
The essays cover various aspects of slavery and the role of slavery in the development of the southern United States Brazil
Cuba the French and Dutch Caribbean and elsewhere in the Americas Some essays explore the emergence of the slave
system and others provide important insights about the operation of specific slave economics There are reviews of slave
markets and prices and discussions of the efficiency and distributional aspects of slavery Perspectives are brought on the
transition from slavery and subsequent adjustments and the volume contains the work of prominent scholars many of whom
have been pioneers in the study of slavery in the Americas The Cuban Slave Market, 1790-1880 Laird W. Bergad, Fe
Iglesias García, María del Carmen Barcia, 1995-05-26 Slavery was in many ways the fundamental institution in colonial Cuba
whose economy was based on the export of sugar from the slave worked plantations This volume presents a quantitative
study of Cuban slavery from the late eighteenth century until 1880 the year slavery was formally abolished on the island The
core of this study is an examination of the yearly movement of slave prices and changes in the demographic characteristics of
the slave market Based on data from the notarial protocol records of the Archivo Nacional de Cuba this book establishes
precise price trends for slaves by age sex nationality and occupation and considers a number of other variables including the
prices of coartados slaves who had begun the process of buying their freedom and the patterns of emancipation
Incorporating over 30 000 slave transactions from three separate locations in Cuba Havana Santiago and Cienfuegos this
work comprises the largest extant database on any slave market in the Americas **The Fourth Great Awakening and
the Future of Egalitarianism** Robert William Fogel, 2000 Robert William Fogel was awarded the Nobel Prize in Economic
Science in 1993 To take a trip around the mind of Robert Fogel one of the grand old men of American economic history is a
rare treat At every turning you come upon some shiny pearl of information The Economist In this broad thinking and
profound piece of history Robert William Fogel synthesizes an amazing range of data into a bold and intriguing view of
America s past and future one in which the periodic Great Awakenings of religion bring about waves of social reform the
material lives of even the poorest Americans improve steadily and the nation now stands poised for a renewed burst of
egalitarian progress **Writing the History of Slavery** David Stefan Doddington, Enrico Dal Lago, 2022-01-13 Exploring
the major historiographical theoretical and methodological approaches that have shaped studies on slavery this addition to
the Writing History series highlights the varied ways that historians have approached the fluid and complex systems of
human bondage domination and exploitation that have developed in societies across the world The first part examines more
recent attempts to place slavery in a global context touching on contexts such as religion empire and capitalism In its second

part the book looks closely at the key themes and methods that emerge as historians reckon with the dynamics of historical slavery. These range from politics, economics, and quantitative analyses to race and gender to psychohistory. History from below and many more. Throughout, examples of slavery and its impact are considered across time and place in Ancient Greece and Rome, Medieval Europe, colonial Asia, Africa, and the Americas, and trades throughout the Atlantic and Indian Oceans. Also taken into account are thinkers from Antiquity to the 20th century and the impact their ideas have had on the subject and the debates that follow. This book is essential reading for students and scholars at all levels who are interested in not only the history of slavery but in how that history has come to be written and how its debates have been framed across civilizations.

Without Consent Or Contract Ralph A. Galantine, Richard L. Manning, 1992 **The Conquest of High Mortality and Hunger in Europe and America** Robert William Fogel, 1990. The modern secular decline in mortality in Western Europe did not begin until the 1780s and the first wave of improvement was over by 1840. The elimination of famines and of crisis mortality played only a secondary role during the first wave of the decline and virtually none thereafter. Reductions in chronic malnutrition were much more important and may have accounted for most of the improvement in life expectancy before 1875. Chronic malnutrition could not have been eliminated merely by more humane national policies but required major advances in productive technology. Although there were some improvements in the health, nutritional status, and longevity of the lower classes in England and France between 1830 and the end of the nineteenth century, these advances were modest and unstable and included some reversals. An even larger reversal occurred among the lower classes in the United States. Although the technological progress, industrialization, and urbanization of the nineteenth century laid the basis for a remarkable advance in health and nutritional status during the first half of the twentieth century, their effects on the conditions of life of the lower classes were mixed at least until the 1870s or 1880s. The great gains of the lower classes were concentrated in the sixty-five years between 1890 and 1955. Improvement in nutrition and health may account for as much as 30 percent of the growth in conventionally measured per capita income between 1790 and 1980 in Western Europe but for a much smaller proportion in the United States. **The Law of Contract** William Murray Gloag, 1929 Macmillan Encyclopedia of World Slavery Paul Finkelman, Joseph Calder Miller, 1998. Covering the history of human slavery in Asia, Europe, Africa, the Americas, and the United States, this volume has entries for individuals and such topics as the details of living conditions, resistance, and rebellion, law, and emancipation, and theory and politics.
