## **To Fortune Born:**

**Born to Write** Neil Kenny, 2020-02-27 It is easy to forget how deeply embedded in social hierarchy was the literature and learning that has come down to us from the early modern European world From fiction to philosophy from poetry to history works of all kinds emerged from and through the social hierarchy that was a fundamental fact of everyday life Paying attention to it changes how we might understand and interpret the works themselves whether canonical and familiar or largely forgotten But a second related fact is much overlooked too works also often emanated from families not just from individuals Families were driving forces in the production that is in the composing editing translating or publishing of countless works Relatives collaborated with each other edited each other or continued the unfinished works of deceased family members some imitated or were inspired by the works of long dead relatives The reason why this second fact about families is connected to the first about social hierarchy is that families were in the period a basic social medium through which social status was claimed maintained threatened or lost So producing literary works was one of the many ways in which families claimed their place in the social world The process was however often fraught difficult or disappointing If families created works as a form of socio cultural legacy that might continue to benefit their future members not all members benefited equally women sometimes produced or claimed the legacy for themselves but they were often sidelined from it Relatives sometimes disagreed bitterly about family history identity not least religious and so about the picture of themselves and their family that they wished to project more widely in society through their written works whether printed or manuscript So although family was a fundamental social medium out of which so many works emerged that process could be conflictual as well as harmonious The intertwined role of family and social hierarchy within literary production is explored in this book through the case of France from the late fifteenth to the mid seventeenth century Some families are studied here in detail such as that of the most widely read French poet of the age Cl ment Marot But the extent of this phenomenon is quantified too some two hundred families are identified as each containing more than one literary producer and in the case of one family an extraordinary twenty seven

**Born Under Saturn** Rudolf Wittkower, Margot Wittkower, 2006-11-28 A rare art history classic that The New York Times calls a delightful scholarly and gossipy romp through the character and conduct of artists from antiquity to the French Revolution Born Under Saturn is a classic work of scholarship written with a light and winning touch Margot and Rudolf Wittkower explore the history of the familiar idea that artistic inspiration is a form of madness a madness directly expressed in artists unhappy and eccentric lives This idea of the alienated artist the Wittkowers demonstrate comes into its own in the Renaissance as part of the new bid by visual artists to distinguish themselves from craftsmen with whom they were then lumped together Where the skilled artisan had worked under the sign of light fingered Mercury the ambitious artist identified himself with the mysterious and brooding Saturn Alienation in effect was a rung by which artists sought to climb the social ladder As to the reputed madness of artists well some have been as mad as hatters

some as tough minded as the shrewdest businessmen and many others wildly and willfully eccentric but hardly crazy What is certain is that no book presents such a splendid compendium of information about artists lives from the early Renaissance to the beginning of the Romantic era as *Born Under Saturn* The Wittkowers have read everything and have countless anecdotes to relate about artists famous and infamous about suicide celibacy wantonness weird hobbies and whatnot These make *Born Under Saturn* a comprehensive quirky and endlessly diverting resource for students of history and lovers of the arts This book is fascinating to read because of the abundant quotations which bring to life so many remarkable individuals The New York Review of Books *Confessions of a Born-again Pagan* Anthony T. **Born to be Happy Enjoy Life to the full by Prasanna Rao Bandela** Prasanna Rao Bandela, We human beings have only one life to live then why not celebrate and enjoy it s all of us are born with valuable gifts to make our lives happy but we hardly make use of their full potential If only we realise this all of us can enjoy life Our domain is the present Let us not allow ourselves to drift into the past nor should we avoid the realities of the moment by thinking about the future We know we cannot change the past but we can ruin the present if we are not careful So let us not squander the precious little lifetime given to us by feeling sorry for the past that never returns or worrying about the future that is uncertain let us try to optimise joy in our lives by focusing on the here and now Joyful moments can make a lifetime of happiness their memories can create a heaven on earth Remember we have only one change to live the happy life of a unique human being and nobody gets a second chance The why not choose to live a joyful life as long as we live **Sermons of a Buddhist Abbot** Sōen

Shaku, 1906 Annotation First published in 1906 *SERMONS OF A BUDDHIST ABBOT* remains one of the best introductions to Buddhist thought for a Western audience Presented with an incisive new foreword by one of today's foremost scholars of Buddhism and Japanese religion it contains the lectures and articles of the Japanese Zen abbot Soyen Shaku whose talks in the United States first popularized Buddhism Foreshadowing the attitude and method of many contemporary teachers Shaku advocates an approach to religious life that stresses personal understanding based on practice and experience rather than the acceptance of received creeds and doctrines His lucid explanations make use of Western religious philosophic and psychological references to clarify the ideas central to understanding of Mahayana Buddhism which is the basis of all schools and denominations *History of the Early Settlers of Sangamon County, Illinois* John Carroll Power, 1876 **1349-1713**

, 1897 *My American Harp* Surazeus Astarius, 2017-03-14 *My American Harp* presents 1 169 poems written 2010 2014 by Surazeus that explore what it means to be an American in the modern world of an interconnected global civilization
