This Freedom of Ours Frank Birch,2013-12-12 Originally published in 1937 this book discusses the meaning of freedom in its relationship with British religious political social and economic institutions *Freedom, Peace, and Secession* Burkhard Wehner,2020-02-19 This book adopts a long term perspective to consider political self determination peacekeeping and the creation of political meaning It analyzes problems in the nation state system and assesses current issues regarding separatism and secession movements Drawing on extensive research in the fields of political theory democracy studies and social welfare the book develops a framework of new rules on a fundamental level that can help nations overcome conflicts concerning borders and nationalities

Slavoj Žižek: Live Theory Rex Butler,2005-03-04 Slavoj Žižek is undoubtedly one of the world's leading cultural critics His witty psychoanalytically inspired analyses of contemporary society have almost single handedly revived the notion of ideology His brilliant commentaries on the French psychoanalyst Jacques Lacan and the 19th century German Idealists have brought alive their often difficult ideas for a new generation of readers But does Žižek have anything to say in his own right Is there a system of thought that we can properly call Žižekian This book argues that there is through a reading of two terms in his work the master signifier and the act Featuring an interview with Žižek himself Slavoj Žižek *Live Theory* presents a snapshot of the Žižek system ideal for undergraduates in social and cultural theory and philosophy

Uncertain Times Jacques Ranciere,2024-02-02 The global triumph of democracy was announced thirty years ago promising an age of consensus in which the dispassionate consideration of objective problems would give birth to a world at peace Today these grand hopes lie in ruins and the era touted as new has turned out to be remarkably similar to the old order To understand why this might be so we need to examine the nature of the consensus itself which is not the peace that it promised but rather the map of a territory on which new forms of warfare are being waged The objective reality that imposed itself at the end of the 1990s was an absolutized and globalized capitalism which has produced ever more inequality exclusion and hate In this book Jacques Ranciere delivers a frank and piercing critique of the globalized capitalist consensus The invasion of Iraq the riots on Capitol Hill and the rise of the European far right all attest to the true nature of this consensus as does the current state sanctioned racism which exploits the disenchanting progressive tradition and is led by an intelligentsia that claims to be left wing At the same time Ranciere praises the dynamism of social movements which affirm the power of the assembly of equals and its capacity for worldmaking autonomous protest collectives have proven themselves capable of opening breaches in the consensual order and challenging the post 1989 system of domination **Education for Freedom** Jean-Louis Allard,1982 **Daily Intelligence** ,1921 *German Political Philosophy* Chris Thornhill,2007-01-24 This book combines philosophical intellectual historical and political theoretical methodologies to provide a new synoptic reading of the history of German political philosophy Incorporating chapters on the political ideas of Luther and Zwingli on the politics of the early Enlightenment on Idealism on Historicism and Lukács on early Twentieth Century political theology

on the Frankfurt School and on Habermas and Luhmann the book sets out both a broad and a detailed discussion of German political reflection from the Reformation to the present In doing so it explains how the development of German political philosophy is marked by a continual concern with certain unresolved and recurrent problems It claims that all the major positions address questions relating to the origin of law that all seek to account for the relation between legal validity and metaphysical and theological superstructures and that all are centred on the attempt to conceptualise and reconstruct the character of the legal subject
