House documents, 1878      Puzzling Modernism in Twentieth-Century Literature Laura Lorhan, 2025-08-01 Puzzling Modernism in Twentieth Century Literature identifies a sustained interest in puzzles such as the jigsaw and Fifteen Puzzle dating back to the 1880s in the United States and argues that puzzles appealed to modernist authors because they offer a framework for acknowledging the grim realities of modern life without sacrificing the possibility for reconnection and regaining a sense of wholeness However puzzles also participate in exclusionary discourses and advance regressive agendas particularly when administered as intelligence tests Far more than aesthetic models then puzzles serve modernist writers as tools for revealing and frequently subverting the rhetorical ends to which these seemingly innocent and trivial pastimes have been put This volume examines how Ezra Pound T S Eliot Dorothy Parker Djuna Barnes Jean Toomer and Carson McCullers intervened in cultural debates about race gender sexuality and belonging via their selection of specific puzzles as aesthetic influences and touchstones for interrogating received ideas Geared toward specialists in twentieth century Anglo American literature this book is nonetheless accessible to undergraduates and other educated readerships Blending close reading with cultural history Puzzling Modernism in Twentieth Century Literature offers a nuanced view of American literary history from a time not unlike our own in which nativism intolerance and fear were endemic      **Platoon Training** William Henry Waldron, 1920      *Harper's New Monthly Magazine*, 1875      *Structural Analysis and Design of Tall Buildings* Bungalow S.
