## **The Homeless:**

*The Homeless* Christopher Jencks, 1994 Late in the 1970s Americans began to notice more people sleeping in public places and wandering the streets By the late 1980s the homeless were everywhere a grim reminder of America's social and economic troubles Renowned social analyst Jencks discusses the causes and extent of this problem and what can be done about it Line illustrations and tables

*Address Unknown* James D. Wright, 2009 Homelessness in America has grown from a minor problem in isolated areas of a few big cities into a near epidemic Today scarcely any American city of any appreciable size lacks homeless people Homeless shelters and programs have become as essential and as commonplace as police protection or water and sewage treatment What to do for with or about the homeless is a nagging and complex social policy issue debated at all levels of government *Address Unknown* emphasizes the large scale social and economic forces that have priced an increasingly large segment of the urban poor completely out of the housing market Seen in this light the problem of homelessness is that there are too many extremely poor people competing for too few affordable housing units The nation would be facing a formidable homelessness problem even if there were no alcoholics no drug addicts no deinstitutionalized mentally ill people no personal pathologies of any kind Rather than a choice homelessness is the result of housing markets that have very little to offer to extremely poor people The plight of the homeless is very visible and *Address Unknown* is one of the first major investigative studies into the nature and multiple causes of the problem Wright considers demographic economic sociological and social policy antecedents of homelessness A hallmark is the delineation of the range of factors involved including deinstitutionalization of the mentally ill urban renewal the decrease in lower skilled jobs changing political priorities and bureaucratic obstacles to providing existing social services to the homeless population James D Wright is a professor in the department of sociology at the University of Central Florida He has published seventeen books including *Armed and Considered Dangerous* and *Under the Gun* as well as many journal articles His current research interests include violence urban poverty and inequality health and the homeless population and the divorce reform movement

**Housing the Homeless** Jon Erickson, Charles Wilhelm, 2017-07-12 Homelessness has become a lasting issue of vital social concern As the number of the homeless has grown the complexity of the issue has become increasingly clear to researchers and private and public service providers The plight of the homeless raises many ethical anthropological political sociological and public health questions The most serious and perplexing of these questions is what steps private charitable and public organizations can take to alleviate and eventually solve the problem The concept of homelessness is difficult to define and measure Generally persons are thought to be homeless if they have no permanent residence and seek security rest and protection from the elements The homeless typically live in areas that are not designed to be shelters e.g parks bus terminals under bridges in cars occupy structures without permission e.g squatters or are provided emergency shelter by a public or private agency Some definitions of homelessness include persons living on a short

term basis in single room occupancy hotels or motels or temporarily residing in social or health service facilities without a permanent address Housing the Homeless is a collection of case studies that bring together a variety of perspectives to help develop a clear understanding of the homelessness problem The editors include information on the background and politics of the problem and descriptions of the current homeless population The book concludes with a resource section which highlights governmental policies and programs established to deal with the problem of homelessness The Homeless Lisa Orr,1990 An anthology of opposing viewpoints discusses the problems and causes of homelessness The Homeless in Contemporary Society University of Wisconsin--Milwaukee. Urban Research Center,1987-06 The Homeless in Contemporary Society addresses the problems of homelessness in two parts Part One Understanding Homelessness outlines the historical context of the new homeless Part Two Program and Policy Options discusses the role of government and other institutions in alleviating homelessness *The Homeless* Jennifer A. Hurley,2002 Authors debate whether homelessness is a serious problem what housing options would benefit the homeless and how society should deal with the homeless **The Homeless** Tamara L. Roleff,1996 Opposing viewpoints on the issues of the homeless debating what the causes are and what the government and society could do **Hunger Among the Homeless** United States. Congress. House. Select Committee on Hunger,1986 **The Homeless** Louise I. Gerdes,2007 Explores issues concerning the homeless factors that contribute to the problem and possible benefits to reduce homelessness **The Homeless Activist** Sage Lewis,2021-09-28 American homelessness is a humanitarian disaster And we just let it happen This book is a how to guide for the people of America to end homelessness TODAY Bureaucrats homeless service providers churches and politicians are incapable and unwilling to do the work they should be doing WE THE PEOPLE MUST DO THE WORK This is the manual on becoming a homeless activist and ending homelessness in the richest most Christian country in the world All proceeds of this book go to the Houseless Movement an organization dedicated to sheltering homeless people in whatever way our homeless brothers and sisters need or want to be sheltered immediately *Homeless Advocacy and the Rhetorical Construction of the Civic Home* Melanie Loehwing,2018-10-04 Homeless assistance has frequently adhered to the three hots and a cot model which prioritizes immediate material needs but may fail to address the political and social exclusion of people experiencing homelessness In this study Loehwing reconsiders typical characterizations of homelessness citizenship and democratic community through unconventional approaches to homeless advocacy and assistance While conventional homeless advocacy rhetoric establishes the urgency of homeless suffering it also implicitly invites housed publics to understand homelessness as a state of abnormality that destines the individuals suffering it to life outside the civic body In contrast Loehwing focuses on atypical models of homeless advocacy the meal sharing initiatives of Food Not Bombs the international competition of the Homeless World Cup and the annual Homeless Persons Memorial Day campaign She argues that these modes of unconventional homeless advocacy provide rhetorical exemplars of a type of inclusive and empowering civic discourse that is missing from

conventional homeless advocacy and may be indispensable for overcoming homeless marginalization and exclusion in contemporary democratic culture Loehwing's interrogation of homeless advocacy rhetorics demonstrates how discursive practices shape democratic culture and how they may provide a potential civic remedy to the harms of disenfranchisement, discrimination, and displacement. This book will be welcomed by scholars whose work focuses on the intersections of democratic theory and rhetorical and civic studies as well as by homelessness advocacy groups.

*Down and Out, on the Road* Kenneth L. Kusmer, 2002. Covering the entire period from the colonial era to the late twentieth century, this book is the first scholarly history of the homeless in America. Drawing on sources that include records of charitable organizations, sociological studies, and numerous memoirs of formerly homeless persons, Kusmer demonstrates that the homeless have been a significant presence on the American scene for over two hundred years. He probes the history of homelessness from a variety of angles, showing why people become homeless, how charities and public authorities dealt with this social problem, and the diverse ways in which different class, ethnic, and racial groups perceived and responded to homelessness. Kusmer demonstrates that despite the common perception of the homeless as a deviant group, they have always had much in common with the average American. Focusing on the millions who suffered downward mobility, *Down and Out on the Road* provides a unique view of the evolution of American society and raises disturbing questions about the repeated failure to face and solve the problem of homelessness.

**Where Have All the Homeless Gone?** Anthony Marcus, 2006. For a decade from 1983 to 1993, homelessness was a major concern in the United States. In 1994, this public concern suddenly disappeared without any significant reduction in the number of people without proper housing. By examining the making and unmaking of a homeless crisis, this book explores how public understandings of what constitutes a social crisis are shaped. Drawing on five years of ethnographic research in New York City with African Americans and Latinos living in poverty, *Where Have All the Homeless Gone* reveals that the homeless crisis was driven as much by political misrepresentations of poverty, race, and social difference as the housing, unemployment, and healthcare problems that caused homelessness and continue to plague American cities.

**The Homeless** The New York Times Editorial Staff, 2019-12-15. Homelessness is a visible problem in big cities and a largely invisible one in small towns and rural areas. This issue involves serious consequences for those living on the streets, in tent cities, or in their cars. Homeless people deal with unsanitary conditions, crimes inflicted against them, and an array of mental, emotional, and physical health problems. Homelessness affects young and old, single people and entire families, veterans, and LGBTQ individuals, among others. This incisive collection of articles examines the myriad issues faced by communities, activists, governments, and private charities when addressing this vulnerable population. Media literacy questions and terms are included to help readers further analyze news coverage and reporting styles.
