**Being the Body of Christ in the Age of Management** The Rev'd Lyndon Shakespeare, 2016-08-26 The church needs effective leaders We must be more missional Better organization is required Such sentiments are commonplace among Christians concerned with the health and sustainability of their local church as well as the church universal Over the past thirty years the desire for more efficiently run effectively led and organizationally sound churches has contributed to an approach to thinking about the church in terms uncritically assumed from the business and management sector This has given rise to treating the church as if it were just another social body in need of better organization The question is what happens when we apply the logic of management techniques to an organization that identifies as the body of Christ Drawing on organizational theory theological anthropology and sacramental theology this book navigates a path for Christians that avoids reducing the church to just another organization while providing a vision for the church as the social body where all are invited to connect and be made members of Christ and each other Such a vision provides an alternative to the social categorization that would define the church by its organizational character rather than its eschatological destiny

Christian Reflections on The Leadership Challenge is a faith based companion to the best selling leadership book of all time The Leadership Challenge.
