Understanding Politics Thomas M. Magstadt, Peter M. Schotten, 1996 **Political Action** George Beam, Dick W. Simpson, 1984

Politics and the study of politics are at a watershed They are deficient because they fail to respond to fundamental crises in our society fail to incorporate new knowledge from other fields of study and fail to allow citizens to function as mature human beings shaping their own destiny Political Action demonstrates the need for a new political science which in turn may lead to a new politics more adequate to the problems of this era Modern political science as currently studied and practiced is irrelevant for both public officials and citizens because it fails to focus on political action Simpson and Beam provide a methodology for the study of political action and demonstrate how the study of political action using these methods provides a better understanding of politics and how these methods aid in identifying effective strategies for building a better America Without a new focus on political action political science will remain sterile and without a more humane politics citizens will remain misinformed apathetic and helpless Political Action is controversial because it challenges the profession of political science It provides a paradigm shift in the field which is important for allied social science disciplines as well For political strategists it provides the methodological tool of political action propositions which allow a careful calculation of the effects of alternative strategies
