

Understanding Democracy An Introduction To Public Choice

Albert Breton

Understanding Democracy An Introduction To Public Choice:

Understanding Democracy J. Patrick Gunning,2003 *Understanding Democracy* Albert Breton,1997-08-13

Democracy has moved to the centre of systemic reflections on political economy gaining a position which used to be occupied by the debate about socialism and capitalism Certitudes about democracy have been replaced by an awareness of the elusiveness and fluidity of democratic institutions and of the multiplicity of dimensions involved This is a book which reflects this intellectual situation It consists of a collection of essays by well known economists and political scientists from both North America and Europe on the nature of democracy on the conditions for democracy to be stable and on the relationship between democracy and important economic issues such as the functioning of the market economy economic growth income distribution and social policies The Law and Regulation of Payment Services Rhys Bollen,2012-07-01

There is a widespread demand among businesses for more convenient and reliable international payment products and inevitably this has led to calls for more predictable and consistent regulation of these products especially in the light of such innovations as online payments and stored value cards Recognizing that recurring risks tend to be dealt with in similar ways by most legal regimes this study the first of its kind draws on a detailed analysis of the strengths and weaknesses of existing regimes to develop an international model which incorporates both the legal elements and their practical application In building his model the author addresses the fundamental questions in the law of payment services Who bears the risk of unauthorised payments What must be done about claims of error When are payments completed so that they discharge the underlying liability When can payments be reversed These issues are examined through in depth descriptions of payment facilities as regulated in five key jurisdictions Australia the United Kingdom the European Union Singapore and the United States under the headings of scope licensing disclosure obligations of the parties liability redress and dispute resolution The five regimes are further measured against the key harmonization project in this field the UNCITRAL Model Law on Credit Transfers The discussion is illustrated with analyses of leading cases and a number of worked examples In summary this very useful book synthesizes a logical and useful package of regulatory measures into a model that takes into account the lessons learnt in the regulation of payment services Businesses will warmly welcome the study s contribution toward reducing the cost of taking a product to market across multiple jurisdictions Policymakers and legislators will find the task of comparing the various approaches to payment services regulation and analyzing their effectiveness greatly facilitated The Oxford Handbook of Public Choice, Volume 1 Roger D. Congleton,Bernard N. Grofman,Stefan Voigt,2018-12-07 The Oxford Handbook of Public Choice provides a comprehensive overview of the research in economics political science law and sociology that has generated considerable insight into the politics of democratic and authoritarian systems as well as the influence of different institutional frameworks on incentives and outcomes The result is an improved understanding of public policy public finance industrial organization and macroeconomics as the combination of political and economic analysis shed light on how various

interests compete both within a given rules of the games and at times to change the rules These volumes include analytical surveys syntheses and general overviews of the many subfields of public choice focusing on interesting important and at times contentious issues Throughout the focus is on enhancing understanding how political and economic systems act and interact and how they might be improved Both volumes combine methodological analysis with substantive overviews of key topics This first volume covers voting and elections interest group competition and rent seeking including corruption and various normative approaches to evaluating policies and politics Throughout both volumes important analytical concepts and tools are discussed including their application to substantive topics Readers will gain increased understanding of rational choice and its implications for collective action various explanations of voting including economic and expressive the role of taxation and finance in government dynamics how trust and persuasion influence political outcomes and how revolution coups and authoritarianism can be explained by the same set of analytical tools as enhance understanding of the various forms of democracy

The Oxford Handbook of Public Choice Roger D. Congleton, Bernard Grofman, Stefan Voigt, 2019 This two volume collection provides a comprehensive overview of the past seventy years of public choice research written by experts in the fields surveyed The individual chapters are more than simple surveys but provide readers with both a sense of the progress made and puzzles that remain Most are written with upper level undergraduate and graduate students in economics and political science in mind but many are completely accessible to non expert readers who are interested in Public Choice research The two volume set will be of broad interest to social scientists policy analysts and historians

Democracy and the Post-totalitarian Experience Leszek Koczanowicz, Beth J. Singer, 2005 This book presents the work of Polish and American philosophers about Poland s transition from Communist domination to democracy Among their topics are nationalism liberalism law and justice academic freedom religion fascism and anti-Semitism Beyond their insights into the ongoing situation in Poland these essays have broader implications inspiring reflection on dealing with needed social changes

Rational Foundations of Democratic Politics Albert Breton, Gianluigi Galeotti, Pierre Salmon, Ronald Wintrobe, 2003-09-15 Democracy is widely accepted today perhaps as never before as the most suitable form of government But what is democracy and does it always produce good government Democracy is often associated with the existence of competitive elections But theory and experience suggest that these are not sufficient for democracy to function reasonably well In this book which was originally published in 2003 a number of experts from North America and Europe use a rational choice approach to understand the foundations of democracy what makes democracy successful and why In doing so they consider diverse problems of democratic governance such as the importance of morals or virtue in political life negative advertising the role of social capital and civil society in sustaining democracy the constitutional and cultural prerequisites of democracy and the interaction of democracy and markets

Behavioral Public Choice Economics and the Law Eric C. Ip, 2022-10-20 This book provides an accessible introduction to the emerging field of behavioral public choice economics and

the law This field studies how public officials lawmakers and judges fall prey to their own biases and heuristics and how constitutions and judicial doctrines can be structured to mitigate these cognitive shortcomings Written lucidly in plain language this book is invaluable to all students scholars and general readers interested in behavioral economics law and economics and political economy **Journal of Economic Literature** ,2004 **The Elgar Companion to Public Choice** William F. Shughart,Laura Razzolini,2003-01-01 this compendium offers a solid introduction into an economic field that is gaining in influence Detmar Doering Frankfurter Allgemeine Zeitung The first essay in this volume Public Choice at the Millennium by the two editors sets a high standard for all the essays to follow The essay takes us through the early history of public choice research in a particularly lucid fashion This first article is destined to be a must read on many reading lists on both graduate and undergraduate courses in political economy the volume is likely to become a much used reference tool for those researchers interested in a comprehensive discussion of the far reaching literature in this area and want some provocation in the mix this is clearly the right choice Sharon M Oster Public Choice Many of the chapters of this handbook will be an indispensable addition to any course reading list in public choice or public economics They serve as an excellent complement integrating diverse lines of thoughts to the core scholarly writings in the field The essays are well written and succeed admirably in accomplishing what a handbook must making difficult and disparate material quite comprehensible to someone who wishes to become acquainted with the area Harold M Hochman Lafayette College US This is an extremely valuable insiders account of what public choice is about Presented in thirty well reasoned and documented chapters the book is a treasure trove for every political economist J rgen G Backhaus Maastricht University The Netherlands This authoritative and encyclopaedic reference work provides a thorough account of the public choice approach to economics and politics The Companion breaks new ground by joining together the most important issues in the field in a single comprehensive volume It contains state of the art discussions of both old and contemporary problems including new work by the founding fathers as well as contributions by a new generation of younger scholars The book reviews the literature of public choice highlighting the common ground between all rational choice approaches to politics It demonstrates the important impact of public choice on economics political science philosophy and sociology It will be an indispensable source of reference for many years to the ideas analytical methods and empirical research in the field The Companion will serve as the standard reference work for all those engaged in the field of public choice and will be essential reading for politicians and policymakers scholars in political science public and social choice as well as graduate students in economics political science and public administration

Citizen-Centered Public Policy Making in Turkey Volkan Göçoğlu,Naci Karkin,2023-08-29 This edited volume discusses direct citizen participation and public policymaking in Turkey Written by a diverse group of scholars and practitioners this book advances the field of public policy by critically examining whether and how direct citizen participation may add value to government business Structurally the book focuses on the core topics of public administration the

generation of public services the design and implementation of public policies citizens and networks new business models and local perspectives Using Turkey as a case study this volume fills a gap in the literature and will appeal to researchers interested in public policy in the MENA context **Public Choice and the Challenges of Democracy** José Casas Pardo, Pedro Schwartz, 2007 New thinking in political economy **Understanding Urban Government** Robert L. Bish, Vincent Ostrom, 1973 In her haste to flee the place before the fairy godmother's magic loses effect Cinderella leaves behind a glass slipper *The Local Government Code*, 1999 *Economic Analysis of Sub-Saharan Africa Real Estate Policies* Felix Hammond, Yaw Adarkwah Antwi, 2010-04-29 This book explores why existing real estate arrangements in Africa have not worked well and how they can be organized to provide efficient outcomes **The Virginia Review of Asian Studies**, 1999 Burma's Modern Tragedy Daniel Alfred Metraux, Khin Oo, 2004 For centuries visitors to Burma have come away with a sense of awe and respect for a highly civilized people who live in an incredibly beautiful country Burma is a land with considerable natural resources that should be one of the wealthiest in Asia but while some other Southeast Asian countries have democratized and prospered Burma has not The Burmese are ruled by a highly repressive military dictatorship which has ruined the economy and imprisoned its own people in a living hell where they are deprived not only of their livelihood but also their most basic civil rights The military junta has raped the land as well as the people and has transformed one of the wealthiest nations in Asia into one of the poorest with an annual per capita income of under USD300 While many Burmese have resigned themselves to their fate others continue to resist the tyranny that has overwhelmed their country Aung San Suu Kyi and other leaders of the opposition National League for Democracy NLD and the Burmese democracy movement in Burma and abroad have demonstrated tremendous courage and endured considerable suffering in their efforts to inaugurate a democratic society in their land through the eyes of Burmese and foreign scholars who present a variety of perspectives of life in this noble land This study aims at a collective portrait of the dismal reality of a suffering citizenry who if allowed to be free could be among the most creative energetic and productive people of Asia It also looks at the complexity of a highly heterogeneous people striving to find a collective identity amidst the chaos of savage repression

The Future of Governing B. Guy Peters, 2001 Examines and compares various forms of government in industrialized countries *Encyclopedia of Public Administration and Public Policy, Second Edition - Three Volume Set (Print Version)* Evan M. Berman, Jack Rabin, 2008 From the Nuremberg trials to the Civil Service Reform Act of 1978 to budget reconciliation bills this encyclopedia provides coverage of watershed policies and decisions from such fields as privatization biomedical ethics education and diversity It also addresses issues such as the creation of the Department of Homeland Security

Minnesota Law Review, 2011
