Understanding Field Social Work:

The Routledge Handbook of Social Work Field Education in the Global South Rajendra Baikady, Sajid S.M., Varoshini Nadesan, M. Rezaul Islam, 2022-07-08 This handbook provides an authoritative account of social work field education in the global south. It presents an overview of various aspects of theory and practice modules in the social work curriculum and advances in research in social work field education in the developing world through in-depth analyses and global case studies. Key features: Discusses critical issues and new directions in the theory and practice of social work field education; challenges in field work education; decolonising field work training; developing competent social work graduates; aligning fieldwork with cultural practices in indigenous communities; the idea of clinical social work; and a comparative analysis of social work field supervision. Integrates theory and practice of social work field education for students and teachers from diverse geographical and cultural contexts across the global south including countries from South Asia and Africa and Latin America and the Caribbean covering India, Bangladesh, Pakistan, Nepal, Sri Lanka, China, Georgia, Philippines, Turkey, Papua New Guinea, Eswatini, Republic of Trinidad and Tobago, Kenya, Nigeria, South Africa, Botswana, Chile, and Barbados. Brings together international comparative perspectives on field work education in social work from leading experts, social work educators, and social work professionals. This handbook will be an essential resource for scholars and researchers of social work, development studies, social anthropology, sociology, education, South Asian studies, and Global South studies. It will also be useful to educators and practitioners of social work in global institutions of higher studies as well as civil society organisations. *The Palgrave Handbook of Global Social Work Education* Sajid S.M., Rajendra Baikady, Cheng Sheng-Li, Haruhiko Sakaguchi, 2020-10-23 This handbook addresses the issues and challenges of the delivery of social work education in the contemporary world. It provides an authoritative overview of the key debates, switching the lens away from a Western-centric focus to engage with a much broader audience in countries that are in the process of modernization and professionalization alongside those where social work education is more developed. Chapters tackle major challenges with respect to curriculum, teaching practice, and training in light of globalization, providing a thorough examination of the practice of social work in diverse contexts. This handbook presents a contribution to the process of knowledge exchange which is essential to global social work education. It brings together professional knowledge and lived experience, both universal and local, and aims to be an essential reference for social work educators, researchers, and students. *Ubuntu Philosophy and Decolonising Social Work Fields of Practice in Africa* Janestic Mwendu Twikirize, Charlotte Tusasiirwe, Rugare Mugumbate, 2023-10-24 This book addresses a recurrent gap in social work literature by examining Ubuntu as an Indigenous African philosophy that informs social work beyond the largely residual and individualistic conceptualisation of social work that currently prevails in many contexts. Owing to the lack of social work theories, models, and generally literature that is locally and contextually relevant, most social work lecturers based in African context struggle to access learning materials and texts that centre local indigenous voices and worldviews. It

is within this context that the ubuntu philosophy has gained traction There is increasing consensus that Ubuntu as an African philosophy and way of life has the potential to be used as a decolonising framework for social work education and practice Theorising from Ubuntu can influence and be the foundation for African social work theory and knowledge social work values and ethics social work research and policy and Ubuntu informing different fields of social work practice like social work with older people children and young people ubuntu and poverty alleviation ubuntu and the environment among others Drawing together social workers engaged in education research policy practice to theorise Ubuntu and its tenets philosophies and values this book shows how it can be a foundation for a decolonised more relevant social work education and practice in African contexts
