Ethnonationalism Walker Connor, 2018-06-05 Walker Connor perhaps the leading student of the origins and dynamics of ethnonationalism has consistently stressed the importance of its political implications In these essays which have appeared over the course of the last three decades he argues that Western scholars and policymakers have almost invariably underrated the influence of ethnonationalism and misinterpreted its passionate and nonrational qualities Several of the essays have become classics together they represent a rigorous and stimulating attempt to establish a secure methodological foundation for the study of a complicated phenomenon increasingly if belatedly

recognized as the major cause of global political instability The book opens by reviewing a wide range of scholarship on ethnonationalism Connor examines nineteenth and early twentieth century debate among British scholars on the viability and desirability of the multinational state the American nation building school of thought that dominated the literature on political development in the post World War II era and the recent explosion of literature on ethnonationalism In the second part of the book he shows how progress in the study of ethnonationalism has been hampered by terminological confusion an inclination to perceive homogeneity even where heterogeneity thrives an unwarranted tendency to seek explanation for ethnic conflict in economic differentials and lack of historical perspective The book closes with a consideration of the inherent limitations of rational inquiry into the realm of group identity Gibraltar, Identity and Empire E.G. Archer,2013-01-11 The principal argument in Gibraltar and Empire is that Gibraltarians constitute a separate and distinctive people notwithstanding the political stance taken by the government of Spain Various factors environmental ethnic economic political religious linguistic educational and informal are adduced to explain the emergence of a sense of community on the Rock and an attachment to the United Kingdom A secondary argument is that the British empire has left its mark in Gibraltar in various forms such as militarily and for a number of reasons Gibraltar and Empire s exploration of the manifold reasons why the Gibraltarians have bucked the trend in the history of decolonization comes at a time when the issues in question have come to the fore in diplomatic and political areas *The "Nation" in War* Gita Viswanath,2014-04-11 *The Nation in War* A Study of Military Literature and Hindi War Cinema explores the notions of nation and nationalism as they emerge in war narratives specifically military literature and war films in popular Hindi cinema This book is an interesting examination of how the discourses of military literature and war films construct the subject namely nation The Indian nation faces a multi pronged attack from neighbouring countries that seek territorial aggrandizement the forces of liberalization economic and cultural and from secessionist forces within the nation In the face of such an attack a plethora of discourses engages seriously in constructing an idea of the Indian nation and reinforcing the notion of an Indian identity The nation may have come into existence as a political entity in August 1947 but the nation as a cultural social and economic entity is constantly in the making *The Nation in War* addresses concerns such as What narrative modes are deployed to create consensus for war How do war narratives further the statist agenda What is the link between the war waged by the national army and that by the insurgents How do war narratives construct women as national subjects These questions and more are addressed using theoretical insights from various disciplinary positions such as feminist postcolonial and film studies The book will be of interest to scholars of cultural studies film studies feminist studies political science and sociology **Understanding Nationalism** Patrick Colm Hogan,2009 Imagining Community in White Nationalism's Mediated Network Kevan A.
