students and scholars of peace and conflict studies security studies and international relations *Understanding Peacekeeping* Alex J. Bellamy, 2004 *Peace Operations and Global Order* Alex J. Bellamy, Paul Williams, 2005 *Peacekeeping in Global Politics* investigates the changing role of peacekeeping and competing perspectives about what that role should be. It begins by addressing broad issues connected with the transition from a Westphalian to post Westphalian international society the ethical and legal dilemmas provoked by armed intervention and the alternative ways of conceptualising the role that peacekeeping plays. It goes on to critically chart the development of traditional peacekeeping before outlining how the role of force in peacekeeping operations has changed and the close links between peacekeeping conflict prevention and conflict resolution. The final part of the volume focuses specifically on globalization and the effects that this has had on peacekeeping practices. In particular it focuses on the changing conflict environment the growing tendency towards subcontracting peacekeeping duties and the development of regional peacekeeping capabilities. Overall this volume makes two contributions to the way we think about peacekeeping first it demonstrates that the theory and practice of peacekeeping is embedded in global politics and second it shows that there is an on going debate about what peacekeeping is for. **How Peace Operations Work** Jeni Whalan, 2013-12. When powerful states and international organizations decide to respond to violent conflict around the world their preferred policy instrument is to deploy peace operations institutions that must serve both the international politics of their creation as well as the fractured local societies they aim to transform. But while their international face has been widely analysed we know less about how peace operations function on the ground. In *How Peace Operations Work* Jeni Whalan addresses this critical dimension of peacekeeping. She analyses the effectiveness of peace operations through a local lens asking new questions about how they work and generating new insights about how they might be made to work better. What emerges is the overriding importance of local legitimacy the perception among local actors that a peace operation its personnel and its objectives are right fair and appropriate. *How Peace Operations Work* demonstrates that when local actors perceive a peace operation to be legitimate they are more likely to help the operation achieve its goals. This book combines novel theoretical progress with rich empirical work drawing on in depth case studies of the United Nations Transitional Authority in Cambodia UNTAC and the Regional Assistance Mission to Solomon Islands RAMSI to propose a new approach to studying the effectiveness of peace operations and a set of practical recommendations that challenge key elements of prevailing peace operations policy. *UN Peace Operations and International Policing* Charles T. Hunt, 2014-09-15. This book addresses the important question of how the United Nations UN should monitor and evaluate the impact of police in its peace operations. UN peace operations are a vital component of international conflict management. Since the end of the Cold War one of the foremost developments has been the rise of UN policing UNPOL. Instances of UNPOL action have increased dramatically in number and have evolved from passive observation to participation in frontline law enforcement activities. Attempts to ascertain the impact of UNPOL activities have proven

inadequate This book seeks to redress this lacuna by investigating the ways in which the effects of peace operations and UNPOL in particular are monitored and evaluated Furthermore it aims to develop a framework tested through field research in Liberia for Monitoring and Evaluation M E that enables more effective impact assessment By enhancing the relationship between field level M E and organisational learning this research aims to make an important contribution to the pursuit of more professional and effective UN peace operations This book will be of much interest to students of peace operations conflict management policing security studies and IR in general *The Oxford Handbook of International Organizations* Jacob Katz Cogan, Ian Hurd, Ian Johnstone, 2016-11-24 Virtually every important question of public policy today involves an international organization From trade to intellectual property to health policy and beyond governments interact with international organizations in almost everything they do Increasingly individual citizens are directly affected by the work of international organizations Aimed at academics students practitioners and lawyers this book gives a comprehensive overview of the world of international organizations today It emphasizes both the practical aspects of their organization and operation and the conceptual issues that arise at the junctures between nation states and international authority and between law and politics While the focus is on inter governmental organizations the book also encompasses non governmental organizations and public policy networks With essays by the leading scholars and practitioners the book first considers the main international organizations and the kinds of problems they address This includes chapters on the organizations that relate to trade humanitarian aid peace operations and more as well as chapters on the history of international organizations The book then looks at the constituent parts and internal functioning of international organizations This addresses the internal management of the organization and includes chapters on the distribution of decision making power within the organizations the structure of their assemblies the role of Secretaries General and other heads budgets and finance and other elements of complex bureaucracies at the international level This book is essential reading for scholars practitioners and students alike

Journal of Peacebuilding & Development ,2002

Peacekeepers and Their Wives David R. Segal, Mady Wechsler Segal, 1993-10-30 David and Mady Segal analyze the adaptation of American soldiers assigned to the Multinational Force and Observers MFO in the Sinai Desert in support of the Camp David Accords in the context of the evolution of multinational peacekeeping forces as mechanisms for achieving international security The reactions of soldiers and their wives to the peacekeeping assignment are considered from the perspective of the social construction of reality in which the role of the military has been defined as war fighting The press has ignored peacekeeping until very recently and it falls to military organizations to soldiers and their families to make sense of the mission Lessons learned from the Sinai MFO experience should be used to help U S troops better prepare for their increasing role in multinational peacekeeping

The United Nations And Changing World Politics, Third Edition Thomas G. Weiss, David P. Forsythe, Roger A. Coate, 2001 Providing a comprehensive and contemporary examination of the United Nations the authors provide a thematic approach exploring its role in three core issues in international relations International Peace and Security Human Rights and Humanitarian Affairs and Building Peace Through Sustainable Development Historically informed and analytically rich The

United Nations and Changing World Politics introduces the reader to the opportunities and limits of the central international organization. The authors bring to bear both extensive practical experience and scholarly depth in assessing the strengths and weaknesses of the UN's performance as well as providing practical suggestions for improvements. Thoroughly updated to take into account recent experiences including the Balkan crises, this book is an important resource for readers interested in international relations, peace and war, third world development and human rights.

AMISOM in Somalia Donatien Nduwimana, 2013

Peacebuilding and Transitional Justice in East Timor James DeShaw Rae, 2009. Did the United Nations successfully help to build a just, peaceful state and society in postconflict East Timor? Has transitional justice satisfied local demands for accountability and/or reconciliation? What lessons can be learned from the UN's efforts? Drawing on extensive field work, James DeShaw Rae offers a grassroots perspective on the relationship between peacebuilding and transitional justice. Rae traces the effects of the political violence perpetrated in East Timor during the Indonesian occupation as well as the UN authorized intervention and the ultimate formulation of the rebuilding effort. In the process, he explores the results of hybrid mixed domestic international tribunals and the attempt to conduct war crimes tribunals and truth and reconciliation commissions in tandem. Not least, his account of the impact of international actors working with the East Timorese to construct a new nation from the ground up suggests important policy prescriptions for all postconflict societies.
