Understanding Soviet Society:

Understanding Soviet Society Michael Paul Sacks, Jerry G. Pankhurst, 2013-10-15 First Published in 1988

Understanding Soviet Society has grown out of the authors experience as sociologists researching and teaching about the Soviet Union Meant initially as an update to Contemporary Soviet Society Sociological Perspectives from 1980 this became a new volume because of the addition of six new authors but also because of the major changes occurring in the USSR today that in many ways necessitated new approaches It examines the fundamental institutions of Soviet society from work and social welfare to politics and the Party in order to provide an objective understanding of the social underpinnings of the Soviet System

The Soviet System George Fischer, 2017-07-12 Many things make up a modern society its history culture natural setting wealth classes and peoples For some the power structure the political system lies at the heart of the social order Russia has long been a political society and its future may also be decided in large part by the power structure A good way to understand Russia and other modern societies is to examine the ties between the Soviet system and the rest of the country's life George Fischer argues that it is these ties that explain much about the consequences of a communist state The Soviet System originally published in 1968 presents a provocative challenge to prevailing theories of modernization throughout the world In this book Fischer takes issue with current assumptions that societies developing an advanced fully modern economy and culture must inevitably adopt Western type social and political institutions The author holds that our understanding of contemporary nations is impeded by assessing them in terms of the prevailing American theory of pluralism The notion that a pluralist division of labor pervades all of modern society is challenged and tested in the context of the former Soviet Union as a modern society The emergence of the dual executive a leader with a special mixture of political and economic know how is emphasized as a trend toward a monist model of society Fischer demonstrates how this model in which all power is public and both industry and culture remain part of a non capitalist non liberal state structure can prove useful in studying social change today The result is a book of value to all scholars and students dealing with the social and political systems of both developing and advanced societies long after the Soviet system of rule dissolved

Factors Behind the Ukrainian Evangelical Missionary Surge from 1989 to 1999 John Edward White,2020-03-16 Throughout its history the Soviet Union was one of the most closed places in the world to missionary work As perestroika came in the late 1980s and the Soviet Union fell in 1991 a spiritual vacuum formed as massive numbers of people became interested in Christianity An unprecedented freedom allowed evangelicals to engage in missionary work Much has been written about foreign evangelical missionary work during this period but virtually nothing has been written about nationals doing ministry This book examines the remarkable surge in Ukrainian evangelical missionary work from 1989 to 1999 Both Baptists and Pentecostals engaged in a wave of missions flowing from Ukraine to the end of the earth Siberia What were these pioneering missionaries like What motivated them What enabled them to do what had been forbidden for so long What legacy did they leave for us today What can we learn from their example for future missions This book also looks at how a surge in missions takes place analyzing the factors behind the Ukrainian evangelical missionary surge by looking at different models for change Here we consider what steps can we take to help bring about new missionary surges

The Soviet Union and ASEAN Thomas L. Wilborn,1980 This memorandum considers whether Soviet foreign

policy in the ASEAN countries has been a success or failure The author contends that after Vietnam invaded Kampuchea with Soviet support and the ASEAN area assumed greater importance to Moscow than ever before whatever influence the USSR had in ASEAN capitals was negated ASEAN countries forcefully have opposed Vietnamese and Soviet policy toward Kampuchea and the refugee problem and indirectly have supported China The author believes that Soviet strategy to contain China requires at least ASEAN neutrality and that Soviet moves to reverse current trends can be expected Author
