Biodiversity Under Threat R E Hester, R M Harrison, 2007-10-31 There is much public concern about threats to global biodiversity Industrial pollution changes in agricultural practices and climate change are all having a direct impact on biodiversity In this book the Editors provide a broad view of the many pressures imposed by human induced changes and the

many threats to global biodiversity and of the policy responses required to combat them This excellent text includes the work of some 44 authors and offers a solid description of the current understanding of threats to biodiversity with a range of illustrative examples a valuable point of reference for ecologists environmental scientists and students as well as policymakers and all other environmental professionals

Sustainability Indicators Tomás Hák, Bedrich Moldan, Arthur Lyon Dahl, 2012-09-26 While the concept of sustainability has been widely embraced it has been only vaguely defined and is exceedingly difficult to measure Sustainability indicators are critical to making the broad concept of sustainability operational by providing specific measures by which decision makers and the public can judge progress Sustainability Indicators defines the present state of the art in indicator development It presents a comprehensive assessment of the science behind various indicators while placing special emphasis on their use as communications tools The contributors draw on their experience as academics and practitioners to describe the conceptual challenges to measuring something as complex as sustainability at local regional national and global scales The book also reviews existing indicators to assess how they could be better employed considering which indicators are overused and which have been underutilized Sustainability Indicators will help planners and policy makers find indicators that are ready for application and relevant to their needs and will help researchers identify the unresolved issues where progress is most urgently needed All readers will find advice as to the most effective ways to use indicators to support decision making
