## **The Human Side Of Exceptionality:**

**The Human Side of Exceptionality** Dale D. Baum,1982 *The Human Side of Exceptionality*. Victor Cogen, Conference Director ; Lester Mann, Editor ,1974 [The Cumulative Book Index](#) ,1994 A world list of books in the English language *Special Education in Contemporary Society* Richard M. Gargiulo,Emily C. Bouck,2016-12-02 2015 Recipient of the Textbook Excellence Award from the Text and Academic Authors Association TAA The Sixth Edition of Richard Gargiulo s well respected *Special Education in Contemporary Society An Introduction to Exceptionality* offers a comprehensive engaging and easy to read introduction to special education Grounded in research and updated to reflect the most current thinking and standards of the field the book provides students with the skills and knowledge to become successful teachers Richard Gargiulo and new co author Emily Bouck encourage a deep awareness and understanding of the human side of special education Their book provides students a rare look into the lives of exceptional students and their families as well as the teachers that work with exceptional persons throughout their lives The new edition maintains the broad context and research focus for which the book is known while expanding on current trends and contemporary issues to better serve both pre service and in service teachers of exceptional individuals The text is organized into two distinct parts to offer students a truly comprehensive and humane understanding of exceptionality In Part I readers are provided strong foundational perspective on broad topics that affect all individuals with an exceptionality In Part II the authors engage students with thorough examinations of individual exceptionalities and discuss historical personal and educational details of each exceptionality as it affects a person across the lifespan **Paperbound Books in Print** ,1992 **The Consciousness' Drive** Charles Cole,2018-09-18 What is the uniquely human factor in finding and using information to produce new knowledge Is there an underlying aspect of our thinking that cannot be imitated by the AI equipped machines that will increasingly dominate our lives This book answers these questions and tells us about our consciousness its drive or intention in seeking information in the world around us and how we are able to construct new knowledge from this information The book is divided into three parts each with an introduction and a conclusion that relate the theories and models presented to the real world experience of someone using a search engine First Part I defines the exceptionality of human consciousness and its need for new information and how uniquely among all other species we frame our interactions with the world Part II then investigates the problem of finding our real information need during information searches and how our exceptional ability to frame our interactions with the world blocks us from finding the information we really need Lastly Part III details the solution to this framing problem and its operational implications for search engine design for everyone whose objective is the production of new knowledge In this book Charles Cole deliberately writes in a conversational style for a broader readership keeping references to research material to the bare minimum Replicating the structure of a detective novel he builds his arguments towards a climax at the end of the book For our video game video on demand times he has visualized

the ideas that form the book's thesis in over 90 original diagrams. And above all he establishes a link between information need and knowledge production in evolutionary psychology and thus bases his arguments in our origins as a species: how we humans naturally think and how we naturally search for new information because our consciousness drives us to need it.
