Teaching and Researching Chinese Second Language Listening Wei Cai,2022-05-30 Teaching and Researching Chinese Second Language Listening focuses on Chinese L2 listening with theory and pedagogy at its heart The objectives of the book are to recount the development of Chinese L2 listening pedagogy to synthesize research on Chinese L2 listening and to propose a Chinese L2 listening approach This book is the first to bridge the gap between Chinese L2 and general L2 listening and develop a much needed systematic teaching approach to Chinese listening based on research findings in L2 listening the unique features of the Chinese language and the distinctive characteristics of the Chinese L2 learner population This book grounds Chinese L2

teaching in solid theories of L2 acquisition and teaching The research informed and evidence based Chinese L2 teaching approach proposed in the book seeks to move beyond the traditional product oriented approach to integrate form meaning process and learner focused listening This book also discusses Chinese L2 listening from learners perspectives heritage versus non heritage learners and motivation These are presented together with theory and teaching practice The book is aimed at researchers in service teachers and students taking upper level undergraduate courses and postgraduate courses for programs in Chinese applied linguistics and teaching Chinese as a second language TCSL Chinese listening studies to date have mostly been published in the Chinese language which severely limits their readership This book is therefore written in English to fill the gap in current scholarship Due to a large number of Chinese learners and the consequential booming programs in TCSL and CIE Chinese international education it is important to dedicate a book specifically to Chinese listening Diagnostic and Remedial Reading for Classroom and Clinic Robert Mills Wilson, Craig J.
