natural rights and self government Throughout the editing process it was reduced by nearly a quarter through the removal of sentences and redundancies Congress approved of the Declaration of Independence on July 2 1776 but returned it to Adams and Jefferson for some fine tuning before giving it their final approval two days later Though Independence Day is celebrated on July 4 Adams wrote to Abigail on July 3 1776 in the belief that it would be July 2 that would be remembered as the important day The Declaration of Independence The History and Legacy of America s Founding Document chronicles the history that brought about America s formal break from Great Britain Along with pictures and a bibliography you will learn about the Declaration of Independence like never before in no time at all [What Is the Declaration of Independence?](#) Michael C. The Declaration of Independence R. Conrad Stein, 1995 Dramatic and defining moments in American history come vividly to life in the Cornerstones of Freedom series 1776 in the United States Lura Lopez, 2012-05-10 What is so special about the United States Declaration of Independence? In this new compelling book from author Lura Lopez, find out more about the United States Declaration of Independence. The Declaration of Independence was a statement adopted by the Continental Congress on July 4, 1776, which announced that the thirteen American colonies then at war with Great Britain regarded themselves as independent states and no longer a part of the British Empire. John Adams put forth a resolution earlier in the year which made a formal declaration inevitable. A committee was assembled to draft the formal declaration to be ready when Congress voted on independence. Adams persuaded the committee to select Thomas Jefferson to compose the original draft of the document which Congress would edit to produce the final version. The Declaration was ultimately a formal explanation of why Congress had voted on July 2 to declare independence from Great Britain more than a year after the outbreak of the American Revolutionary War. The Independence Day of the United States of America is celebrated on July 4, the day Congress approved the wording of the Declaration. After ratifying the text on July 4, Congress issued the Declaration of Independence in several forms. It was initially published as a printed broadside that was widely distributed and read to the public. The most famous version of the Declaration is a signed copy that is usually regarded as the Declaration of Independence and is displayed at the National Archives in Washington, D.C. Although the wording of the Declaration was approved on July 4, the date of its signing has been disputed. Most historians have concluded that it was signed nearly a month after its adoption on August 2, 1776, and not on July 4 as is commonly believed. The original July 4 United States Declaration of Independence manuscript was lost, while all other copies have been derived from this original document. The sources and interpretation of the Declaration have been the subject of much scholarly inquiry. The Declaration justified the independence of the United States by listing colonial grievances against King George III and by asserting certain natural and legal rights, including a right of revolution. Having served its original purpose in announcing independence, the text of the Declaration was initially ignored after the American Revolution. Since then, it has come to be considered a major statement on human rights, particularly its second sentence: "We hold these truths to be self-evident, that all men are created equal, that they are endowed by their Creator with certain unalienable Rights, that among these are Life, Liberty, and the pursuit of Happiness." This has been called one of the best-known sentences in the English language, containing the most potent and consequential words in American history. So what separates this book from the rest?
