This Is Scotland:

This Is Scotland Daniel Gray,2014 In This is Scotland Daniel Gray and Alan McCredie venture off the beaten track to explore smalltown Scotland in this quirky travelogue They cover the sights and delights in towns across Scotland from Galashiels to Cowdenbeath from Govan to Pitlochry to more rural settings such as the Isle of Skye **Changing Scotland** David McCrone,2025-10-31 Twenty five years of a Scottish parliament presents the opportunity to take stock of a new Scotland to be seen in the context of wider social political and cultural changes occurring over the previous fifty years The book draws upon a wealth of empirical material to enable us to read this changing Scotland The time frame is crucial We can now see that the transformative moment lay in the long decade of the late 1960s and 1970s when social economic and political processes began to transform Scotland in a radical way Fifty years on we live in a quite different country Scotland sits at the nexus of three key concepts civil society nation and state This book tells that story explains how it came about and its legacy in understanding this new Scotland Prizing Scottish Literature Stevie Marsden,2021-02-15 This cultural history of the Saltire Society Literary Awards demonstrates the significance the awards have had within Scottish literary and cultural life It is one piece of the wider cultural award puzzle and illustrates how far from being parochial or niche lesser known awards whose histories may be yet untold play their own role in the circulation of cultural value through the consecration of literary value The study of the Society s Book of the Year and First Book of the Year Awards not only highlights how important connections between literary awards and national culture and identity are within prize culture and how literary awards and their founding institutions can be products of the socio political and cultural milieu in which they form but this study also illustrates how existing literary award scholarship has only begun to scratch the surface of the complexities of the phenomenon This book promotes a new approach to considering literary prizes proposing that the concept of the literary awards hierarchy can contribute to emerging and developing discourses pertaining to literary and indeed cultural prizes more broadly **Scotland Beyond the Bagpipes** Helen Ochyra,2020-03-28 Like so many people who live south of the border in England Helen thought that she knew all about Scotland It was a part of Britain after all a place that was surely more the same than it was different But then she actually went there and everything changed Travels in Scotland (1842) by J.G. Scotland in Europe Amanda Sloat,2002 This study documents and analyses the expectations of political elites about Scotland's role in a changing European Union Based on 60 interviews with members of civil society government officials and politicians that were conducted during the key months preceding the first elections to the new Scottish Parliament the book considers two key questions First how do elites expect the Scottish Executive to influence European policy making Second how do elites understand the operation of governance under new constitutional arrangements The study draws from the conceptual framework of Multi Level Governance using an actor centred approach to obtain a nuanced understanding of perceptions Many elites conclude that devolution is unlikely to affect significantly Scottish involvement in European policy making They do believe however that it can change the domestic legislative process in accordance with new forms of governance This approach which includes the principles of partnership participation and co operation could also guide Scotland's relationships with the UK and Europe Prize-essays and Transactions of the Highland and Agricultural Society of Scotland Royal Highland and Agricultural Society of Scotland, Edinburgh,1921 *Parliamentary Debates* ,1890 **Aunt Milly's childhood, by the author of 'Willie Smith's money-box'**.
