Vestibular Disorders A Case Study Approach:

Vestibular Disorders Joseph M. Furman, Stephen P. Cass, 2003 Vestibular Disorders Second Edition uses a case study approach to outline the principles and practice of the care of patients with dizziness and balance disorders The text reflects the combined perspectives and experience of a neurologist Dr Furman and a neurotologic surgeon Dr Cass Each case study contains relevant material regarding history physical examination laboratory testing differential diagnosis and treatment This material provides a springboard for discussion of either a concept in the field of vestibular disorders or the diagnosis or treatment of a particular disease state Practical specific treatment options are discussed throughout the book For this the second edition each of the cases from the first edition has been updated the background material has been reorganized and 14 new cases have been added five of which concern patients with multiple diagnoses A new part of the book entitled Controversial Case Studies includes ten cases that address a disorder or clinical issue surrounded by a particularly broad range of opinion or uncertainty Vestibular Disorders Second Edition aims to span the gap between existing in depth texts and the problems that arise whenever a patient presents with dizziness

Balance Disorders Joseph M. Furman, Stephen P. Cass, 1996 Balance Disorders A Case Study Approach is the first reference to address balance disorders from a case study perspective The text reflects the dual perspective of a neurologist and otolaryngologist and covers both medical and surgical treatments Three groups of case studies focus on various aspects of the evaluation of the patient with vertigo or balance disorder patients with common balance disorders and cases whose balance is disrupted by unusual diseases Cases become increasingly difficult in moving through the text Each case is based on an actual patient and points to a clearly stated teaching focus Each also contains questions and answers and a summary of points for review

Vestibular Disorders Joseph M. Furman, Stephen P. Cass, Susan L.
