Lee,1944 **Glass A to Z** David J. Shotwell,2002 Where did Depression glass originate When did Fenton start making glass
The answers to these and many more questions are found here This handy and easy to use new collector s resource of
definitions and descriptions for glass terms styles patterns and manufacturers will be referred to time and time again More
than 400 photographs and line drawings are included to illustrate significant shapes patterns and makers marks Everything
from Depression to Pattern glass and Fenton to Tiffany is covered Includes dozens of manufacturers marks to aid in
identification Features more than 400 photographs and line drawings to illustrate significant shapes patterns and makers
marks Provides valuable historical information on popular glass manufacturers An invaluable resource for collectors dealers

Hawkins,2009-04 The Pittsburgh region while well known for steelmaking was likewise an important glass manufacturing
center in this country s history This book provides detailed accounts of the region s glassmakers from the first factory dating
to 1795 through 1910 Glassmaking started out modestly with small glasshouses in Pittsburgh and up the Monongahela River
in New Geneva during the final few years of the 18th century By the close of the 19th century the Pittsburgh region was
producing more than half of all domestic window glass and the lion s share of most other forms of glass in the United States
The original purpose of this manuscript was to assemble and record as accurately as possible the history of all of the
glassworks and the glass manufacturers that operated them in Pittsburgh and the immediate surrounding region This book
was designed to be a reference guide for anyone who is interested in the history of glass in western Pennsylvania The years
companies were operating where the glassworks were located what types of glass and specific glass items did they make and
what marks did they use is just some of the information that can be found in this book There are hundreds of individual
companies and name changes listed in this volume It contains as much information about each company that could
practically be included Even the most minor name or address change was recorded exactly as noted by contemporary sources
As much as possible contemporary reference sources such as city directories early newspapers maps and journals were used
to provide accurate and complete histories of the glasshouses Generally the better known companies will have much more of
their history available However every known glassmaker and glasshouse was included regardless of how little information
about them could be found This book is intended to aid researchers in the determination of the age and the origin of marked
pieces as well as narrowing down potential manufacturers of unmarked objects The liberal reproduction of original

advertisements and maps as well as the photographs of glass marks were included to complement and augment the narrative
