Eden Stanislaw Lem, 1989 A six man crew crash lands on Eden fourth planet from another sun The men find a strange world that grows ever stranger a desert plain exuding acrid vapors a greenish tinge at the horizon a gray seven foot tree that hisses and withdraws into the ground when touched and thickets of vegetation like hanging spiders In a labyrinth of plant shaped buildings are dead ends passage ways domes vaulted ceilings and giant statues And everywhere there are images of death mass graves naked bodies in ditches and wells a beehive structure filled with clusters of giant eggs a skeleton within each egg The crew s attempt to communicate with this civilization leads to violence and to a cruel truth cruel precisely because it is so human Copyright Libri GmbH All rights reserved

from the Stars Stanislaw Lem, 2020-02-18 An astronaut returns to Earth after a 10 year mission and finds a society that he barely recognizes in science fiction novel by the Solaris author whose works make our weary universe seem pale and undistinguished by comparison The Washington Post Stanislaw Lem's Return from the Stars recounts the experiences of Hal Bregg an astronaut who returns from an exploratory mission that lasted ten years although because of time dilation 127 years have passed on Earth Bregg finds a society that he hardly recognizes in which danger has been eradicated Children are betritized to remove all aggression and violence a process that also removes all impulse to take risks and explore The people of Earth view Bregg and his crew as resuscitated Neanderthals and pressure them to undergo betritization Bregg has serious difficulty in navigating the new social mores While Lem's depiction of a risk free society is bleak he does not portray Bregg and his fellow astronauts as heroes Indeed faced with no opposition to his aggression Bregg behaves abominably He is faced with a choice leave Earth again and hope to return to a different society in several hundred years or stay on Earth and learn to be content With Return from the Stars Lem shows the shifting boundaries between utopia and dystopia
