

Starting Electronics

Andrew Singmin

Starting Electronics:

Starting Electronics Keith Brindley, 2016-01-29 Starting Electronics is a nine chapter introductory text to electronics based on feature articles previously published as magazine articles The opening chapter provides an overview of the fundamentals of electronics The succeeding chapters present details of some easy to do experiments and the current and voltage measurement The remaining chapters cover some basic components of electronics including capacitor integrated circuit oscillator filter diodes and transistors This book will prove useful to electronic constructors and students *Starting Electronics Construction* Keith Brindley, 2005-08-17 As a step by step guide from circuit design to finished product this practical electronics book actually explains how to select the right tools and components for the job use a soldering iron etch a printed circuit board and mount the finished product in a case and puts skills into practice through simple self build projects Whilst most electronics texts focus on theoretical knowledge Keith Brindley presents a genuinely practical bench guide and reference for electronics experimenters The straightforward interactive style of this book makes it ideal for home electronics work and particularly suitable as an introduction to university lab courses for students who are not familiar with hands on electronics construction The book also lends itself as a self contained resource for secondary school and vocational course classroom projects Master the practical techniques of electronics construction from using a soldering iron to etching a printed circuit board and mounting the finished product in a case Apply practical electronics skills through a series of simple self build projects A bench reference guide to selecting and using the right tools techniques and components whatever your project

Beginning Electronics Through Projects Andrew Singmin, 1997-08-21 Teaches the basics through 10 step by step projects There is limited need to know information and no complex math The Electronics Journal, 1914
