This World:

Out of This World Adventures George Griffith, John Jacob Astor, Edgar Rice Burroughs, 2020-09-15 These three sci fi novels from the dawn of the twentieth century are among the first works of fiction to imagine visiting other planets A Honeymoon in Space Lenox the Earl of Redgrave has invented a flying ship with the power to break free of Earth's gravity But before taking to the stars he has some personal business to attend to namely wooing an old flame The lady in question is Zaidie a woman about to be forced into a loveless marriage Stealing her away Lenox takes her out of this world George Griffith's accounts of other planets are spectacularly imaginative from subterranean civilizations on the moon to the warlike Martians to the musical inhabitants of Venus A Journey in Other Worlds This philosophical sci fi novel by John Jacob Astor follows a stockholder of the Terrestrial Axis Straightening Company across the solar system On Jupiter Astor creates a world of gushing volcanoes crashing waterfalls and otherworldly flora and fauna In contrast his Saturn is an introspective land Astor's vision of a future with levitating trains a police force equipped with cameras and an interconnected network of phones solar power wind power and air travel is astonishingly prescient A Princess of Mars An Arizona prospector John Carter suddenly finds himself transported to Mars in the first novel of Edgar Rice Burroughs's Barsoom series The shift in gravity gives Carter superhuman powers and he'll need them The red planet called Barsoom by its inhabitants is in the grips of civil war To save the legendary Princess Dejah Thoris Carter must defeat legions of giant four armed green barbarians and travel thousands of miles across a landscape populated with monstrous flora and fauna

Christ's Kingdom Not of This World. the Spiritual Character of the Kingdom of Christ, In Three Discourses Seth Williston, 2025-08-07 Reprint of the original first published in 1842 The Antigonos publishing house specialises in the publication of reprints of historical books We make sure that these works are made available to the public in good condition in order to preserve their cultural heritage

A Buddha Land in This World Lajos Brons, 2022 In the early twentieth century Uchiyama Gud Seno o Gir Lin Qiuwu and others advocated a Buddhism that was radical in two respects Firstly they adopted a more or less naturalist stance with respect to Buddhist doctrine and related matters rejecting karma or other supernatural beliefs And secondly they held political and economic views that were radically anti hegemonic anti capitalist and revolutionary Taking the idea of such a radical Buddhism seriously A Buddha Land in This World Philosophy Utopia and Radical Buddhism asks whether it is possible to develop a philosophy that is simultaneously naturalist anti capitalist Buddhist and consistent Rather than a study of radical Buddhism then this book is an attempt to radicalize it The foundations of this radicalized radical Buddhism are provided by a realist interpretation of Yogic ra elucidated and elaborated with some help from thinkers in the broader Tiantai Tendai tradition and American philosophers Donald Davidson and W V O Quine A key implication of this foundation is that only this world and only this life are real from which it follows that if Buddhism aims to alleviate suffering it has to do so in this world and in this life Twentieth century radical Buddhists as well as some engaged Buddhists came to a similar

conclusion often expressed in their aim to realize a Buddha land in this world Building on this foundation but also on Mah y na moral philosophy this book argues for an ethics and social philosophy based on a definition of evil as that what is or should be expected to cause death or suffering On that ground capitalism should be rejected indeed but utopianism must be treated with caution as well which raises questions about what it means from a radicalized radical Buddhist perspective to aim for a Buddha land in this world Lajos Brons is a Dutch philosopher and social scientist living in Japan After receiving a PhD from the University of Groningen in the Netherlands for a dissertation on an aspect of the history and philosophy of the social sciences he gradually moved further and further into philosophical territory Currently Lajos is teaching logic ethics and philosophy at a university in Tokyo His research interests are divided over two broad areas in philosophy one is in the overlap of meta ethics and social political philosophy the other is in the intersection of philosophy of language metaphysics and epistemology Research in the former focuses on the relations between death suffering and compassion Research in the latter concerns the relations between language thought and reality and is heavily influenced by the philosophies of Donald Davidson and W V O Quine and by Buddhist philosophy More information about publications and research interests as well as Lajos s blog can be found at www.lajosbrons.net

Out of This World Priscilla Dionne Layne, 2024-11-15 Examining Afro German artists use of Afrofuturist tropes to critique German racial history The term Afrofuturism was first coined in the 1990s to describe African diasporic artists use of science fiction speculative fiction and fantasy to reimagine the diaspora s pasts and to counter not only Eurocentric prejudices but also pessimistic narratives *Out of This World* Afro German Afrofuturism focuses on contemporary Black German Afrofuturist literature and performance that critiques Eurocentrism and specifically German racism and colonial history This young generation has Priscilla Layne argues engaged with Afrofuturism to disrupt linear time and imagine alternative worlds to introduce non Western technologies into the German cultural milieu and to consider the possibilities of posthumanism Their experiments in futurist and speculative narratives offer new tools for breaking with the binary thinking about race culture and gender identity that have been enforced by repressive ideological and state apparatuses such as educational cultural and police institutions Rather than providing escapism or purely imaginary alternatives however they have created a space outer and artistic in which their lives matter *Out of This World* Jacob Berkowitz, 2009-09 Are we alone in the universe Probably not say most scientists *In and Out of This World* Stephen C. Finley, 2022-10-24 With *In and Out of This World* Stephen C Finley examines the religious practices and discourses that have shaped the Nation of Islam NOI in America Drawing on the speeches and writing of figures such as Elijah Muhammad Malcolm X Warith Deen Mohammad and Louis Farrakhan Finley shows that the NOI and its leaders used multiple religious symbols rituals and mythologies meant to recast the meaning of the cosmos and create new transcendent and immanent black bodies whose meaning cannot be reduced to products of racism Whether examining how the myth of Yakub helped Elijah Muhammad explain the violence directed at black bodies how Malcolm X made black bodies in the NOI publicly visible

or the ways Farrakhan's discourses on his experiences with the Mother Wheel UFO organize his interpretation of black bodies Finley demonstrates that the NOI intended to retrieve reclaim and reform black bodies in a context of antiblack violence
