Studies In Mithraism:

The Mind of Mithraists Luther H. Martin, 2014-11-20 The Roman cult of Mithras was the most widely dispersed and densely distributed cult throughout the expanse of the Roman Empire from the end of the first until the fourth century AD rivaling the early growth and development of Christianity during the same period As its membership was largely drawn from the ranks of the military its spread but not its popularity is attributable largely to military deployments and re deployments Although mithraists left behind no written archival evidence there is an abundance of iconographic finds The only characteristic common to all Mithraic temples were the fundamental architecture of their design and the cult image of Mithras slaying a bull How were these two features so faithfully transmitted through the Empire by a non centralized non hierarchical religious movement

The Minds of Mithraists Historical and Cognitive Studies in the Roman Cult of Mithras addresses these questions as well as the relationship of Mithraism to Christianity explanations of the significance of the tauroctony and of the rituals enacted in the mithraea and explanations for the spread of Mithraism and for its resistance in a few places The unifying theme throughout is an investigation of the mind of those engaged in the cult practices of this widespread ancient religion These investigations represent traditional historical methods as well as more recent studies employing the insights of the cognitive sciences demonstrating that cognitive historiography is a valuable methodological tool

Journal of Mithraic Studies , 1976 *The Origins of the Mithraic Mysteries* David Ulansey, 1991 This volume sets forth a new explanation of the meaning of the cult of Mithraism tracing its origins not as commonly held to the ancient Persian religion but to ancient astronomy and cosmology

Hinnells,1975 **Mithraic studies : proceedings of the First International Congress of Mithraic Studies. 1 (1975)** John R. Hinnells,1975 *Mithras* Kelly Mass, Mithraism was a Roman mystery religion centered around the god Mithras also referred to as the Mithraic mysteries While the Roman version of Mithras was inspired by the Iranian worship of the Zoroastrian god Mithra the iconography and practices associated with Roman Mithras diverged significantly from their Persian counterparts The degree of continuity between Persian and Greco Roman rituals is a subject of ongoing debate among scholars Mithraism flourished from the 1st to the 4th century CE particularly among the soldiers of the Roman Empire The worship of Mithras involved a complex system of initiation with seven distinct levels that initiates progressed through This initiation process was accompanied by ceremonial feasts and those who joined the religion were called syndexioi meaning joined by the handshake These initiates gathered in vast numbers within underground shrines known as mithraea The religion likely originated in Rome but its influence spread throughout the western Roman Empire reaching as far as Roman Africa Numidia and Roman Britain Mithraism also had a lesser presence in Roman Syria in the east though it was never as widespread in that region In the early centuries of the Roman Empire Mithraism and early Christianity were seen as competing religious systems with Christians later persecuting Mithraists during the 4th century Over time Mithraism was gradually repressed and eventually eradicated from the Roman Empire by the end of the 4th century The Personalities of Mithra in Archaeology and Literature A.
