Study Of War:

A Study of War Quincy Wright, Louise Leonard Wright, 1983-11-15 Louis Leonard Wright's abridgment of this classic work reorganizes some of Wright's material and deletes footnotes and appendixes but still retains the power and impact of the original. The most comprehensive work ever published in any language on the history, the nature, the causes, and the cure of war. A Study of War is a liberal education in the social disciplines. Frederick L. Schuman, A major contribution to the realistic study of international relations. Garrett Mattingly, New York Times. Handbook of War Studies Manus I. Midlarsky, 1989. Part III State-Centered Theories of War. Public Opinion and National Security. Policy Relationships and Impacts. Bruce Russett and Thomas W. Graham. The Diversionary Theory of War. A Critique. Jack S. Levy. Lateral Pressure in International Relations. Concept and Theory. Nazli Choucri and Robert C. North. Studies and Documents on the War: no. 1. United States Naval Institute Proceedings United States Naval Institute, 1902. **Armor**, 2013. Security Studies Paul D. Williams, 2012-05-23. Security Studies is the most comprehensive textbook available on security studies. Comprehensively revised for the new edition including new chapters on Polarity, Culture, Intelligence, and the Academic and Policy Worlds, it continues to give students a detailed overview of the major theoretical approaches, key themes, and most significant issues within security studies. Part 1 explores the main theoretical approaches currently used within the field, from realism to international political sociology. Part 2 explains the central concepts underpinning contemporary debates, from the security dilemma to terrorism. Part 3 presents an overview of the institutional security architecture currently influencing world politics, using international, regional, and global levels of analysis. Part 4 examines some of the key contemporary challenges to global security, from the arms trade to energy security. Part 5 discusses the future of security. Security Studies provides a valuable teaching tool for undergraduates and MA students by collecting these related strands of the field together into a single coherent textbook.
