Organisations** Luigino Bruni,Alessandra Smerilli,2014-08-13 This book looks at the governance of values based  
organizations VBOs which are organizations with a mission and identity based on ideals Examples of VBOs include non profit  
organizations charities NGOs environmental educational or cultural organizations and social enterprises The main objective  
of any VBO is to evolve and grow without losing its identity which its survival is linked to in the medium and long terms The  
focus of this book is the study of the relational and motivational dynamics during identity crisis using critical mass models  
and Hirschman s exit and voice framework This book analyses the dynamics that arise in VBOs when the quality of the ideal  
deteriorates On the basis of Hirschman s exit and voice model it analyses the factors that lead the best members the  
intrinsically motivated ones who care most about the mission and ideals of the organization to leave if their voice is ignored  
We show that the possible cumulative effects caused by the exit of intrinsically motivated members can lead the organization  
to a process of deterioration This book offers an analysis of these phenomena which are usually studied in sociology or  
political science by using an economic approach and the language of evolutionary game theory By combining sociological  
politics and economics as a theoretical tool we create a fresh approach to explore crises in organizations    The Automobile
