The Circumcision Video:

Jews, God, and Videotape Jeffrey Shandler, 2009-04-01 A pioneering examination of the impact of new communications technologies and media practices on the religious life of American Jewry Engaging media has been an ongoing issue for American Jews as it has been for other religious communities in the United States for several generations Shandler's examples range from early recordings of cantorial music to Hasidic outreach on the Internet In between he explores mid twentieth century ecumenical radio and television broadcasting video documentation of life cycle rituals museum displays and tourist practices as means for engaging the Holocaust as a moral touchstone and the role of mass produced material culture in Jews responses to the American celebration of Christmas Shandler argues that the impact of these and other media on American Judaism is varied and extensive they have challenged the role of clergy and transformed the nature of ritual facilitated innovations in religious practice and scholarship as well as efforts to maintain traditional observance and teachings created venues for outreach both to enhance relationships with non Jewish neighbors and to promote greater religiosity among Jews even redefined the notion of what might constitute a Jewish religious community or spiritual experience As Jews God and Videotape demonstrates American Jews experiences are emblematic of how religious communities engagements with new media have become central to defining religiosity in the modern age [Reading Paul in Context: Explorations in Identity Formation](#) Kathy Ehrensperger, J. Brian Tucker, 2010-09-30 This new collection celebrates the distinguished contribution of William S Campbell to a renewed understanding of Paul's theologizing and its influence on the shaping of early Christian identity The essays are clustered around two closely related topics Paul's theologizing and the way it influenced Christian identity within the context of Roman Empire The essays consider the continued relevance of previous identities in Christ the importance of the context of the Roman Empire and the significance of the Jewishness of Paul and the Pauline movement in the shaping of identity The political context is discussed by Neil Elliott Ekkehard Stegemann Daniel Patte and Ian Rock whilst the Jewish roots of Paul and the Christ movement are addressed in essays by Robert Jewett Mark Nanos Calvin Roetzel and Kathy Ehrensperger Paul's specific influence in shaping the identity of the early Christ movement is the concern of essays by Robert Brawley Jerry Sumney Kar Yong Lim and J Brian Tucker Finally methodological reflection on Paul's theologizing within Pauline studies is the concern of essays by Terrence Donaldson and Magnus Zetterholm [Bowker's Complete Video Directory 2001](#), 2001 *The Empathy Gap* William Collins, 2021 From the ebook Preface This book majors on the presentation of empirical evidence in the form of data The most digestible form for communicating such material is through the use of Tables and Figures generally graphs Consequently the book has a great many Tables and Figures and the latter are often in colour Viewing on a device capable of rendering colours is therefore recommended although monochrome will be adequate in most cases The Empathy Gap proposes the thesis that men and boys are extensively disadvantaged across many areas of life including in education healthcare genital integrity criminal justice

domestic abuse working hours taxation pensions paternity homelessness suicide sexual offences and access to their own children after parental separation The claim is justified in the book by empirical evidence mostly but not exclusively from the UK involving nearly 1 000 references 179 Figures and 49 Tables To most people of both sexes this will appear to be a perverse perspective as disadvantage has become the province of women girls and minorities not males Yet the empirical case supporting the disadvantages suffered by men and boys is undeniable to the objective mind But if this is so why is the popular perception that males are privileged whereas disadvantage is the province of the opposite sex Why do the male disadvantages go largely unremarked by both sexes if they are so pervasive Presenting the case for widespread and substantial male disadvantage is also a challenge to the usual hegemonic paradigm of feminist theory These issues are addressed within *The Empathy Gap* by presenting an entirely different orientation on the social psychology of relations between the sexes Out goes the idea of an oppressive patriarchy Instead a man's participation in the human pair bond is seen to be altruistic a phenomenon arising originally from evolution and enacted in the individual via the emotional psyche This is the origin of an asymmetry in the perception of the sexes which normalises the preferencing of females and therefore inevitably disadvantages males as a corollary The successful evolved strategy involves male utility and relative male disposability the latter being facilitated by a muted empathy for males by both sexes the empathy gap Rather than working to overcome this male disposability as a true egalitarian movement would have done feminism has fed upon it and amplified it The feminist project relies upon the true state of affairs remaining unacknowledged and the empathy gap is instrumental in its own invisibility In respect of this theory the author makes no claim for originality The ideas presented have been circulating within the sub culture for decades However the focus of the book is to show how these ideas are manifest in practice
