**Evaluations of US Poetry since 1950, Volume 1** Robert von Hallberg, Robert Faggen, 2021-12-01 Over the last sixty years scholars and critics have focused on literary history and interpretation rather than literary value When value is addressed the standards are usually political and identitarian The essays collected in both volumes of Evaluations of US Poetry since 1950 move away from esoteric literary criticism toward a more evaluative and speculative inquiry that will serve as the basis from which poets will be discussed and taught over the next half century and beyond Von Hallberg and Faggen have curated a diverse selection of authors to explore this topic Volume 1 focuses on voice language form and musicality Stephen Yenser writes about Elizabeth Bishop Stephanie Burt about C D Wright Nigel Smith about Paul Simon and Marjorie Perloff about Charles Bernstein among others The essays do not provide an exhaustive survey of recent poetry Instead Evaluations of US Poetry since 1950 presents readers with more than thirty different models of literary absorption and advocacy This is done in explicit hope of reorienting the criticism of poetry

**To Make a Poem** Alberta Turner, 1992-04 A poem comes from the same human need as a prayer a curse a lullaby and a keen How can emotion use language to satisfy its most urgent need and how can it share and prolong that satisfaction by putting it into poems that will satisfy the same need in others The answer can be learned and the skill taught Unlike many other textbooks this one has no teaching manual and Alberta Turner does not expect those who use it to agree with her interpretations Each principle is illustrated with detailed analysis of several poems but it is up to the teachers and students to decide whether it has succeeded or failed Poetic tastes can't be legislated they have to creep by underground runners Although a poem never illustrates only one poetic principle at a time this book has focused on each separately Since the book is intended to be used by beginning poets the principles are sequenced from simpler to more complex As courses in writing poetry range from two week enrichment programs to full semester college workshops the book is arranged so that
